Letter to the Minister

The Hon Dan Tehan MP
Minister for Education
Parliament House
CANBERRA ACT 2600

31 August 2018

Dear Minister,

As the accountable authority of the Tertiary Education Quality and Standards Agency (TEQSA), we have pleasure in presenting to you the agency’s annual report for the year ended 30 June 2018.

TEQSA’s annual report has been prepared in accordance with section 46 of the Public Governance, Performance and Accountability Act 2013 (the PGPA Act). Subsection 46(1) of the PGPA Act requires the accountable authority of the entity to give an annual report to the entity’s responsible Minister for presentation to Parliament.

In addition, we, as the accountable authority of TEQSA, present the 2017–18 annual performance statements of TEQSA, as required under paragraph 39(1)(a) of the PGPA Act. In our opinion, these annual performance statements are based on properly maintained records, accurately reflect the performance of the entity, and comply with subsection 39(2) of the PGPA Act.

Furthermore, we certify that TEQSA:

a. has prepared fraud risk assessments and fraud control plans
b. has in place appropriate fraud prevention, detection, investigation and reporting mechanisms that meet the specific needs of the agency
c. has taken all reasonable measures to appropriately deal with fraud relating to the agency.

This report describes the progress made over the course of 2017–18 to advance national action to assure the quality of higher education in Australia. This work continues through the staff of TEQSA and a range of stakeholders in the higher education sector.

Yours sincerely,

Professor Nicholas Saunders, AO
Chief Commissioner

Professor Cliff Walsh
Commissioner

Dr Linley Martin
Commissioner

ABOUT THIS REPORT

This report informs The Hon Dan Tehan MP, Minister for Education, the Parliament of Australia, the Australian higher education community and the general public about the performance of the Tertiary Education Quality and Standards Agency (TEQSA or the agency) during the financial year ending 30 June 2018.

Prepared according to parliamentary reporting requirements, the report describes TEQSA’s achievements against the goals and indicators set out in the TEQSA Corporate Plan 2017–21 and in TEQSA’s 2017–18 Portfolio Budget Statements.

The Annual Report provides information on TEQSA’s performance in relation to its stated outcome in the Portfolio Budget Statements:

‘[To] contribute to a high quality higher education sector through streamlined and nationally consistent higher education regulatory arrangements; registration of higher education providers; accreditation of higher education courses; and investigation, quality assurance and dissemination of higher education standards and performance’:

Section 1:
Review by the accountable authority—reflects on the past year, highlighting significant issues faced by TEQSA and initiatives undertaken, as well as current and future challenges.

Section 2:
Agency overview — provides information about TEQSA and its governance, roles and functions and organisational structure, as well as its approach to risk- and standards-based regulation.

Section 3:
Performance review — reports on how TEQSA performed during the reporting period against the goals set out in the TEQSA Corporate Plan 2017–21, and against its stated outcome and program deliverables contained in the 2017–18 Portfolio Budget Statements.

Section 4:
Management and accountability — provides information on corporate governance, external and internal accountability, human resource management, financial management, purchasing, consultants and contract management, legal services and other activities relevant to the administration of the agency.
Section 5:
Financial report — presents audited financial statements for the year ending 30 June 2018.

Section 6:
Appendices — includes information relating to TEQSA’s staffing and its performance in relation to Australian Government environmental, disability, freedom of information and financial management outcomes.

Section 7:
Indices and references — assists readers to locate and understand information in the annual report.

REVIEW BY THE ACCOUNTABLE AUTHORITY

Review of the year by the TEQSA accountable authority
SECTION 1: REVIEW BY THE ACCOUNTABLE AUTHORITY

Review of the year by the TEQSA accountable authority

This is TEQSA’s seventh annual report, which analyses the performance of the agency against the TEQSA Corporate Plan 2017–21.

The performance of the agency in 2017–18 continued to reflect the impact of resourcing constraints from previous years. However, the year also included the welcome announcement in the Australian Government’s 2018–19 Budget of an additional $24.3 million over four years to ensure the ongoing financial sustainability of the agency and an increase in permanent staffing. There was also continued endorsement of the overall performance of the agency, with approximately 70 per cent of provider respondents to the 2018 stakeholder survey rating TEQSA’s performance as a regulator as good or excellent. This is particularly the case for those providers that are rated as a low risk to students, where 87 per cent of these providers rated TEQSA as good or excellent.

As in past years, the proportion of applications from prospective providers that were rejected remained high, with only three applications for registration granted from those applications that reached the decision stage. There was also a significant number of applications assessed by the agency during 2017–18 that were withdrawn by the applicants before a decision was made. In the case of those applications that were rejected, a majority of applicants chose to challenge the decision and 2017–18 saw a sharp rise in the number of decisions subject to external review by the Administrative Appeals Tribunal (AAT).

In addition to TEQSA’s core functions of quality assessment and regulatory decision making, the agency undertook significant activity in response to requests from the Minister in relation to the transparency of providers’ admissions processes, the management by providers of incidents of sexual assault and sexual harassment, and the continuing threat to academic integrity posed by contract cheating. The activities of the agency associated with these sector-wide issues have focused on: reviewing evidence of compliance with the Higher Education Standards Framework, identifying areas of risk and developing relevant support materials based on the analysis of risk, and taking regulatory action where necessary.

The agency continued to receive positive feedback to its enhanced program of engagement that was initiated in 2016–17. In 2017–18, this program included:

- the second annual TEQSA conference
- meetings with individual providers to discuss their management of risks identified through TEQSA’s annual risk assessment process
- briefings with provider groups that raised issues through the TEQSA Stakeholder Survey 2017, in order to explore what TEQSA could do to address their concerns
- the establishment of the Student Expert Advisory Group and inclusion of students in the annual TEQSA Conference
- the introduction of a quality enhancement forum series on topics of key interest to providers, commencing with forums on student attrition and contract cheating.
The time taken in 2017–18 to assess and make decisions about applications continued to deteriorate for most types of applications. The deterioration was due to a number of factors noted in the last annual report, including high staff turnover. However, 2017–18 also saw a sharp increase in the number of compliance assessments initiated by the agency in response to immediate threats to quality or risks to students. This work required the diversion of resources from application-based work but will now be addressed by a dedicated team, established with new resources that will also manage student complaints about providers.

For the targets related to the Australian Government Regulator Performance Framework (RPF), all but one of TEQSA’s targets were achieved in 2017–18. In the case of KPI 1 ‘Quality assurance and regulation does not unnecessarily impede the efficient operation of higher education providers’, this was only partially achieved because the stakeholder survey results show a small decrease in the percentage of respondents that rated the agency as good or excellent compared with 2016–17.

Looking forward

With the additional funding and staffing from the 2018–19 Budget, the key challenge over the coming year will be on rebuilding the required resourcing and enhancing our systems to improve the agency’s performance. Consultation around the arrangements for cost recovery of TEQSA’s expenditure, and then their implementation, will be important activities for 2018–19.

The coming year, in which TEQSA will begin its eighth year of operation, will also see the beginnings of the assessment of ‘Cycle 2’ applications for accreditation and registration. This will require the agency to evolve its regulatory approach to reflect the maturing relationship with providers and our deeper knowledge of their operations.

Policy reviews underway that will impact on the higher education sector will also be a key driver of the agency’s work over the coming year. Reviews of the Australian Qualifications Framework (AQF), the higher education provider categories in the Higher Education Standards Framework, and the arrangements for accreditation by professional bodies are likely to require further adjustment of TEQSA’s approach to assessment and allow further opportunities for the agency to provide guidance and support to the sector.

The TEQSA Corporate Plan 2018–22 has taken on board the performance results for 2017–18 and the key messages delivered through the 2018 stakeholder survey. The plan highlights the need to improve the timeliness of our decision making, to review our approach to case management, to ensure our actions reflect risk to students and the reputation of the sector, and to build our capability in regulatory policy.

Professor Nicholas Saunders AO
Chief Commissioner on behalf of the accountable authority
AGENCY OVERVIEW

About TEQSA
Purpose
Legislative framework
Sector reviews
Organisational structure
About TEQSA

TEQSA is Australia’s independent national quality assurance and regulatory agency for higher education. TEQSA commenced operations on 29 January 2012 under the Tertiary Education Quality and Standards Agency Act 2011 (TEQSA Act).

All providers that offer higher education qualifications in or from Australia must be registered by TEQSA. Providers that do not have self-accrediting authority (SAA) must also have their courses of study accredited by TEQSA.

Purpose

To safeguard student interests and the reputation of the higher education sector by assuring the quality of Australian higher education through a proportionate risk-reflective approach which allows higher education providers to pursue their individual missions and encourages diversity, innovation and excellence.

In the 2017–18 Portfolio Budget Statements, TEQSA reported on one outcome and one program. The TEQSA Corporate Plan 2017–21 identifies three key goals for delivering the agency’s purpose.

OUTCOME 1

Contribute to a high quality higher education sector through streamlined and nationally consistent higher education regulatory arrangements; registration of higher education providers; accreditation of higher education courses; and investigation, quality assurance, and dissemination of higher education standards and performance.

PROGRAM 1.1: REGULATION AND QUALITY ASSURANCE – OBJECTIVE

Regulation and quality assurance ensure that quality standards are being met by all higher education providers so that the interests of students and the reputation of Australia’s higher education sector are promoted and protected. This occurs by reference to the Higher Education Threshold Standards, which are determined by the Minister for Education and Training on advice from an independent Higher Education Standards Panel. A risk-based approach to planning and implementing assessments of provider compliance with those Standards is used.

GOAL 1

Effective oversight of the quality and reputation of Australian higher education.

GOAL 2

Efficient, effective, responsive, risk-based quality assurance and regulatory activities.

GOAL 3

Constructive and collaborative relationships with governments, higher education providers and other stakeholders.
Legislative framework

TEQSA regulates higher education providers against the TEQSA Act, and, for the providers that also offer courses to students in Australia on a student visa, against the Education Services for Overseas Students Act 2000 (ESOS Act). Taken together, the legislative frameworks of these Acts incorporate the following quality standards:

- the Higher Education Standards Framework (Threshold Standards) 2015 (HES Framework)
- the National Code of Practice for Providers of Education and Training to Overseas Students 2018 (National Code)
- the Foundation Program Standards (Foundation Standards)
- the ELICOS Standards 2018 (ELICOS Standards).

In addition, the agency has responsibilities under several other Acts and Rules. See Appendix A for more information about these responsibilities.

Sector reviews

In 2017–18, the agency continued to support the Higher Education Standards Panel (the HESP), the Department of Education and Training (the department) and the sector in relation to admissions transparency, academic integrity, and student wellbeing and safety.

Admissions transparency

In 2016, the Minister for Education and Training (the Minister) asked the HESP for options to improve the transparency of higher education student admissions policies. Following consultation, the HESP delivered 14 recommendations that the government accepted in December 2016. In early 2017, the department established the Admissions Transparency Implementation Working Group, with TEQSA’s Chief Executive Officer as a member.

See Performance Indicator 3.4 for more information about the work undertaken by TEQSA in 2017–18 to implement the HESP’s recommendations on admissions transparency.

For more information on TEQSA’s thematic review of admissions transparency www.teqsa.gov.au/admissions-transparency

Academic integrity

Academic integrity issues since 2014 have highlighted the need for increased vigilance to protect the integrity of Australia’s higher education system.

Recent issues have included:

- ‘degree mills’ at non-genuine universities
- contract cheating, including essay writing services
- the alleged sale of forged qualifications
- allegations of third parties sitting exams, or taking entire subjects, for students
- concerns about the security of student academic records.

While there is currently no legislation in Australia that permits action to be taken against parties that provide contract cheating services or fake documentation, the HES Framework requires higher education providers to have appropriate policies and measures in place to prevent, detect and address academic misconduct.
In 2017–18, TEQSA continued to monitor the issue of academic integrity through both its ongoing regulatory activities and its risk assessments of providers, and as part of the response to the issue of contract cheating, which first arose with the MyMaster incident in 2014, TEQSA released a Good Practice Note: Addressing contract cheating to safeguard academic integrity. The release of the good practice note was accompanied by a forum in October 2017 on the topic of contract cheating. The forum was attended by over 130 participants from across the sector and received positive feedback, with participants calling for workshops on the issue.

The good practice note, which complements TEQSA’s existing Guidance Note: Academic Integrity, was developed in collaboration with leading academic integrity expert Professor Tracey Bretag to provide practical advice and examples of good practice to guide higher education operations in relation to contract cheating. The good practice note is the first in a new series of materials to support and promote quality assurance approaches of higher education providers. The note provides specific advice in five critical areas:

- policies to promote academic integrity
- policies and procedures to address breaches
- actions to mitigate risks
- the provision of academic integrity guidance
- good practices to maintain academic integrity.

See Performance Indicator 3.1 for more information on the academic integrity and contract cheating forum. The forum presentation is available at [www.teqsa.gov.au/presentations](http://www.teqsa.gov.au/presentations)

**Student wellbeing and safety**

All providers registered by TEQSA must meet the requirements of the HES Framework, which includes specific standards relating to student wellbeing and safety, such as the need for:

- promotion and fostering of a safe learning environment
- support services for students who need assistance with personal circumstances which may be having an adverse effect on their education
- formal complaints-handling policies and procedures.

In August 2017, the Australian Human Rights Commission (AHRC) released *Change the Course: National Report on Sexual Assault and Sexual Harassment at Australian Universities (2017)*. The Minister wrote to all 39 Australian universities and to the peak bodies for all other higher education providers, seeking responses to the AHRC’s recommendations in the report. TEQSA wrote directly to the remaining 129 higher education providers. The Minister also asked TEQSA to monitor and report on higher education provider responses to incidents of sexual assault and sexual harassment.

In addressing the Minister’s request, TEQSA commenced a project to support providers with implementing actions to ensure the wellbeing and safety of students. The project involves:

- providing advice and sharing good practice with the sector
- requesting and analysing information about providers’ activities in relation to allegations of sexual assault and sexual harassment
- receiving and responding to complaints about providers’ response to incidents of alleged sexual assault and sexual harassment.
The agency undertook a review of the responses received by the 168 providers in March 2018 and will report to the Minister on the outcome of the review in 2018–19, with advice to the sector and examples of good practice to follow.

In January 2018, following consultation with providers, students and key advocacy groups, the agency released a revised guidance note on wellbeing and safety to clarify TEQSA’s expectations when assessing providers’ compliance with these requirements of the HES Framework. The response to the revised guidance note from key advocates was very positive.

In late 2017–18, TEQSA included the standards on wellbeing and safety (in Section 2.3 of the HES Framework 2015) in the scope of all of its assessments against applications for renewal of registration (re-registration).

Complaints and media reports of incidents of alleged sexual assault and sexual harassment are used by TEQSA to identify areas of risk to the provision of quality higher education in Australia, and thereby protect the interests of students.

See Performance Indicator 1.1 for more information about TEQSA’s complaint-handling process.

Organisational structure

Figure 1: TEQSA’s organisational structure.
Commissioners

TEQSA currently has three Commissioners; a part-time Chief Commissioner and two part-time Commissioners. Commissioners are appointed by the Minister based on their expertise in higher education, quality assurance, and regulatory practice. Commissioners are responsible for making regulatory decisions, setting strategic directions, monitoring risk in the sector, and deciding on matters relating to the development of the agency’s quality assurance and regulatory framework. The Commissioners are also the accountable authority for TEQSA.

Professor Nicholas Saunders AO, Chief Commissioner

Professor Saunders joined the agency as Acting Chief Commissioner and Chief Executive Officer in September 2014. He was appointed by the then Minister as TEQSA Chief Commissioner in March 2015, and this appointment was renewed in March 2018.

Professor Saunders was previously Provost and Deputy Vice-Chancellor of Bond University and prior to that Vice-Chancellor of the University of Newcastle, Australia. His other senior academic roles have included: Dean of Medicine, Nursing and Health Sciences at Monash University (1998–2003); Head of the Faculty of Health Sciences and Dean of Medicine, Flinders University (1993–98); Professor of Medicine at the University of Newcastle (1983–93); and positions at McMaster University, Canada, and Harvard University, USA.

Professor Saunders holds a medical degree with first-class honours from the University of Sydney and has been influential in the advancement of medical education and research through his extensive contribution to, and participation on, many higher education, research and health care national committees, councils and state government bodies.

During his career, Professor Saunders has been Chair of the National Health and Medical Research Council; a member of the Higher Education Council, the Prime Minister’s Science, Engineering and Innovation Council, the Australian Research Council and the Aboriginal and Torres Strait Islander Health Council; Chair of the Committee of Deans of Australian Medical Schools; Chair of the Postgraduate Medical Council of NSW; member of the Board of Universities Australia and Lead Vice-Chancellor for research and international activities; and member of the Victorian Premier’s Council for Knowledge, Innovation, Science and Engineering, and the 2011 Ministerial Review of Health and Medical Research in NSW.

Professor Saunders currently holds the part-time position of Chair of the Repatriation Medical Authority of Australia.

In 2012 he was appointed an Officer in the Order of Australia in recognition of his contribution and distinguished service to medicine and higher education.

Dr Linley Martin, Commissioner

Dr Martin was appointed as a TEQSA Commissioner in February 2015. Her appointment was renewed in February 2018.

Previously, she was the Head of University Services and Vice-Principal (Major Projects) at the University of Melbourne from 2009–11, where she had also held the position of Vice Principal and Academic Registrar from 2001–05.

From 2005 to 2008 she was Vice President and Council Secretary at Deakin University and has held many other senior positions at the University of New South Wales, RMIT University, Flinders University and the University of South Australia.

Dr Martin was also a senior adviser to the Review of Australian Higher Education (the Bradley Review) which was pivotal to the establishment of TEQSA.
As well as being a part-time Commissioner at TEQSA, during 2016 Dr Martin was also the part-time Ombuds at RMIT University, an independent reviewer of unresolved student and staff complaints. In 2016 Dr Martin was awarded her Doctor of Philosophy by the University of Melbourne for her thesis on the measurement of student learning outcomes in higher education.

**Professor Cliff Walsh, Commissioner**

Professor Walsh was appointed as a TEQSA Commissioner in February 2014 and this appointment was renewed in February 2018.

He has held professorial appointments at the University of Adelaide and the Australian National University, and visiting appointments at universities in Canada, the US and the UK. His teaching, research, publications and advisory specialities have been in public sector economics and public policy; regulatory theory and its application to economic, social and environmental issues; economic and social evaluation of public sector programs and regulatory regimes; and intergovernmental economic, political and administrative relations.

Professor Walsh has also been an adviser to a Prime Minister and State Premiers; an Associate Commissioner for several Productivity Commission Inquiries; an expert adviser to the European Commission and the World Bank; a member of numerous committees of inquiry into public sector policies and programs; and a member of the quasi-judicial Australian Competition Tribunal, which reviews, on appeal, decisions of Australia’s competition regulator, the Australian Competition and Consumer Commission.

He is currently Emeritus Professor of Economics at the University of Adelaide, and a Visiting Research Fellow in the School of Economics.

**Mr Anthony Mcclaran, Chief Executive Officer**

The Chief Executive Officer (CEO) is a full-time position, appointed by the Minister and with responsibility for the management and administration of TEQSA.

Mr Mcclaran commenced at the agency in October 2015. He holds a first class honours degree in English and American Literature from the University of Kent.

Before joining TEQSA, Mr Mcclaran was the Chief Executive of the UK’s Quality Assurance Agency for Higher Education for six years and prior to that the Chief Executive of the UK’s national agency for higher education admissions, the Universities and Colleges Admissions Service.

Mr Mcclaran has held several leadership positions in the higher education sector, including as Academic Registrar and Acting Registrar and Secretary at the University of Hull. He was previously a member of the Board of the European Association for Quality Assurance in Higher Education. He has held a number of governance roles at all levels of education and was Chair of Council and Pro-Chancellor of the University of Gloucestershire from 2007 to 2009.

Mr Mcclaran was a member of the Board of the International Network of Quality Assurance Agencies in Higher Education (INQAAHE) until May 2018 and has been on the Advisory Council of the US Council for Higher Education Accreditation (CHEA) International Quality Group since 2016. He is currently on the steering group for My eQuals, serves on the Expert Panel for the National Review of Teacher Registration, and is a member of the Audit Committee of the Australian Accounting Standards Board (AASB) and the Auditing and Assurance Standards Board (AUASB).
Senior management team

The Senior Management Team (SMT) comprises the CEO and TEQSA senior managers. The role of the SMT is to support the CEO in discharging his statutory role and provide collective operational leadership for the agency in relation to TEQSA’s operational priorities, including business planning and the management of resources. The SMT reports to the accountable authority through the CEO.

Functional groups

TEQSA’s highly skilled staff possess a range of knowledge and expertise in higher education, quality assurance, regulation, risk management and the public sector. Staff members build on their knowledge and experience through regular interactions with providers, professional accreditation bodies, TEQSA experts and overseas quality assurance bodies.

TEQSA’s staff come from diverse backgrounds, including in higher education delivery, data collection, data analysis, risk management, financial analysis, regulation and government. They apply their specialised skills in assessing complex qualitative and quantitative information, with a focus on protecting the interests of students and the reputation of the higher education sector, by:

- ensuring that higher education providers meet minimum standards
- promoting best practice
- improving the quality of the Australian higher education sector.

To respond to ongoing workload pressures and funding arrangements, TEQSA commenced a rebalancing in 2018, and finalised a new organisational structure in April 2018. The rebalancing, which included a staff consultation process, enabled better management of the assessment load and the establishment of a specialised compliance and investigation capability. A summary of the changes which took effect progressively in 2017–18 are as follows:

- establishment of a dedicated Compliance and Investigations Team
- establishment of a dedicated ESOS/CRICOS Team
- expansion of the Initial Registration Assessment Team (to incorporate course accreditation assessments linked to initial registration applications)
- expansion of the Assurance Group to include responsibility for the case management of all registered higher education providers
- transfer of risk responsibility from the assessment groups to the Policy and Analysis Team (Executive Office).

The functional groups that make up the agency, as at 30 June 2018, are summarised in the following section.

Assessment and Investigations Group and Assurance Group

The Assessment and Investigations Group and the Assurance Group are responsible for delivering TEQSA’s core business of undertaking regulatory assessments under the TEQSA Act (using the HES Framework) and the ESOS Act (using the National Code, ELICOS Standards and Foundation Standards). The groups also work in collaboration with the Executive Office’s Policy and Analysis Team to prepare risk profiles of each registered provider.

The Assessment and Investigations Group has responsibility for: handling complaints about providers; ESOS assessments; initial registrations; compliance assessments; and cases requiring investigations and sanctions (under both the TEQSA and ESOS Acts). Specialisation within the group is structured around assessment of applications for initial...
registration, and investigations. Within the group are staff with technical expertise in relation to ESOS obligations. Towards the end of 2017–18, additional resourcing allowed for the establishment of a dedicated team with responsibility for compliance investigations and complaints handling.

The Assurance Group has responsibility for managing and assessing applications from higher education providers for re-registration and for accreditation of their courses (where providers do not have SAA). This group is also responsible for assessing applications from registered higher education providers for authority to self-accredit one or more courses and applications for change of provider category to one of the University categories.

Legal Group

TEQSA’s Legal Group, led by the General Counsel, is responsible for legal services required by TEQSA as a Commonwealth regulatory agency, including providing TEQSA staff with strategic legal advice and training on legal issues, managing claims by or against TEQSA, and managing AAT matters.

Corporate Group

The Corporate Group provides strategic management of TEQSA’s resources, which includes: finance, human resources, information management, and information and communications technology.

The Information Management Team within the Corporate Group is responsible for scoping and collecting provider data, developing and enhancing reporting capability, and analysing and reporting on information required to support regulatory activity. The team is also responsible for managing TEQSA’s annual Provider Information Request (PIR).

Engagement Group

The Engagement Group is responsible for managing the agency’s relationship with its stakeholders including: provider, student and industry professional bodies; other regulators; and international agencies.

The Engagement Group manages TEQSA’s annual conference, and the agency’s internal and external communication, as well as its external experts.

Executive Office

The Executive Office has primary responsibility for coordinating overall agency activities, including liaising with government and public service stakeholders (including the Minister’s Office, the department and the HESP). The Executive Office is made up of two teams; the Governance Team, and the Policy and Analysis Team.

The Governance Team is responsible for: managing development of, and reporting against, the Corporate Plan, the Annual Report and the RPF; supporting the maintenance of internal procedures of regulatory assessments; preparing for Senate Estimates appearances; coordinating agency security and enterprise risk management; and providing executive and administrative support to the Commissioners, CEO, accountable authority, Senior Management Team and other internal committees.

The Policy and Analysis Team is responsible for: undertaking risk analysis, including financial risk analysis; and undertaking quantitative and qualitative analysis that contributes to regulatory policies.
Performance against goals

Goal 1: Effective oversight of the quality and reputation of Australian higher education

Goal 2: Efficient, effective, responsive, risk–based quality assurance and regulatory activities

Goal 3: Constructive and collaborative relationships with governments, higher education providers and other stakeholders

Analysis of TEQSA’s financial performance
SECTION 3: PERFORMANCE REVIEW

Statement of preparation
We, the TEQSA Commissioners, as the accountable authority of the Tertiary Education Quality and Standards Agency (TEQSA), present the 2017–18 annual performance statements of TEQSA, as required under paragraph 39(1)(a) of the Public Governance, Performance and Accountability Act 2013 (PGPA Act). In our opinion, these annual performance statements are based on properly maintained records, accurately present the performance of the entity, and comply with subsection 39(2) of the PGPA Act.

TEQSA’s purpose
The TEQSA Corporate Plan 2017–21 sets out TEQSA’s performance indicators over a four-year period under three goals:

1. Effective oversight of the quality and reputation of Australian higher education.

2. Efficient, effective, responsive, risk-based quality assurance and regulatory activities.

3. Constructive and collaborative relationships with governments, higher education providers and other stakeholders.

TEQSA works toward safeguarding student and provider interests by assuring the quality of Australian higher education. TEQSA’s strategies during 2017–21 are to:

- identify, monitor and respond to significant trends, incidents and risks to higher education that is delivered in or from Australia
- promote the role, importance and effectiveness of Australia’s quality assurance and regulatory system in maintaining the reputation of Australian higher education nationally and internationally
- maintain a strong focus on the educational experience and outcomes for students
- continue to implement a program of improvement of quality assurance and regulatory approaches involving key stakeholders
- strengthen the collaborative relationship with the Australian Skills Quality Authority (ASQA), the Australian Institute for Teaching and School Leadership (AITSL), the HESP and other agencies with mutual interests both in Australia and internationally
- optimise TEQSA’s application of the HES Framework to enhance internal quality assurance of providers.
TEQSA regulator performance framework report 2016–17

TEQSA stakeholder survey 2018

The principal contact of each provider (including some prospective providers) and the contact of each Australian body or agency that has a Memorandum of Understanding (MoU) with TEQSA were invited to participate in the 2018 stakeholder survey of TEQSA’s performance in 2017–18. Where relevant, performance information references results from the 2018 stakeholder survey. The principal contact participation rate for the 2018 survey was 66 per cent, compared with a response rate of 74 per cent for the 2017 survey.

The TEQSA Corporate Plan 2017–21 integrated the performance indicators of the RPF. TEQSA’s annual performance statement below reports a summary of results achieved in 2017–18 and includes cross-references to the 2017–18 Portfolio Budget Statements, the 2017–21 Corporate Plan and the 2017–18 RPF Key Performance Indicators.
## Performance against goals

### Goal 1

**EFFECTIVE OVERSIGHT OF THE QUALITY AND REPUTATION OF AUSTRALIAN HIGHER EDUCATION**

Goal 1: Effective oversight of the quality and reputation of Australian higher education

**Performance Indicator 1.1**

TEQSA has effective mechanisms to identify, monitor and respond to risks to higher education across the sector.

In 2017–18, TEQSA sought to enhance its mechanisms to manage risks to the higher education sector (particularly for prospective providers) and to address emerging risks to the sector. Major developments for TEQSA in achieving this in 2017–18 were:

- the development of the TEQSA high risk provider policy
- the development of the TEQSA initial provider registrations policy
- the establishment of a dedicated Compliance and Investigations Team.

As part of further integration of risk analysis and regulatory decision making, TEQSA will continue to enhance its risk analysis approach to determine the focus of regulatory activity in 2018–19.

**Initial provider registrations**

In October 2017, an initial provider registrations policy was developed to establish clear expectations for prospective providers and for TEQSA case managers. The policy established a set of principles to inform decision making in relation to initial provider registrations and is intended to address the absence of a track record in higher education for prospective providers.

For more information about the TEQSA initial provider registrations policy www.teqsa.gov.au/for-providers/resources/teqsa-initial-provider-registrations-policy

**Compliance investigations**

Additional funding arising from the Mid-Year Economic and Fiscal Outlook (MYEFO) 2017–18 allowed TEQSA to establish a dedicated Compliance and Investigations Team, the responsibilities of which include undertaking future compliance assessments, monitoring of conditions on providers, and complaints handling. The team commenced work in May 2018 with an initial focus on reviewing student complaints about providers and, in particular, those complaints that relate to sexual assault and sexual harassment.

**TEQSA’s complaints process**

In 2017–18, the agency received over 400 complaints about Australian higher education providers. TEQSA manages complaints about registered higher education providers in relation to their compliance with the HES Framework, the ESOS Act and the National Code. This information contributes to TEQSA’s monitoring of the sector.
Following a review in the previous financial year, in 2017–18 TEQSA revised its approach to handling complaints in line with the agency’s strategic priorities. The revised approach included the establishment of complaints-handling principles and development of procedures, as well as exploration of opportunities for staff training to efficiently and effectively capture, respond to, and report on complaints made to TEQSA about registered higher education providers.

A new online form for submitting complaints via the TEQSA website was launched in 2017–18. TEQSA also accepts complaints made by telephone, email and written correspondence.

Enhanced monitoring

During 2017–18, in addition to information gathered as part of the formative evaluation of providers’ implementation of improved admissions transparency and as part of the review of responses to the AHRC Change the Course report, TEQSA commenced an enhanced monitoring project. The aim of the project is to improve the way the agency uses information to quality assure and regulate higher education providers. In 2017–18, the project scope focused on enhancing the risk categorisation of providers, horizon scanning, and the use of complaints and social media for intelligence gathering.

Performance Indicator 1.2:

Enhanced levels of information about the sector are made available to stakeholders and the sector.

Almost 60 per cent of provider respondents to the 2018 stakeholder survey rated TEQSA as good or excellent in terms of availability of information on trends and observations on sector performance.

In 2017–18, TEQSA continued its efforts to make enhanced levels of information available to the sector with the publication of reports. The third edition of the Key financial metrics on Australia’s higher education sector was released in November 2017.

Further reports will be released in early 2018–19, including the 2018 statistics report on TEQSA registered higher education providers and a report on the assessment insights gathered from the analysis of assessment outcomes from 2014 to 2017.

For more information about the Key financial metrics on Australia’s higher education sector www.teqsa.gov.au/for-providers/resources/key-financial-metrics-australias-higher-education-sector-3rd-edition
Performance Indicator 1.3:

TEQSA engages in regular, constructive dialogue with international quality agencies to contribute to the development of transnational policy.

The agency is involved in a number of global higher education quality assurance networks including the:

- International Network for Quality Assurance Agencies in Higher Education (INQAAHE)
- Council for Higher Education Association International Quality Group (CIQG)
- Asia Pacific Quality Network (APQN)
- Quality Beyond Boundaries Group (QBBG).

TEQSA’s membership, and active participation in these groups, allows the agency to play an important role in protecting, enhancing and promoting the quality and integrity of Australia’s higher education sector internationally.

During 2017–18, in addition to TEQSA’s participation in regular teleconferences with its international Memorandum of Cooperation (MoC) partners, the agency continued its engagement with international quality assurance agencies and networks, through various activities including:

- participation in the University Quality Assurance Forum, hosted by the National Institution for Academic Degrees and Quality Enhancement of Higher Education (NIAD-QE) in August 2017
- TEQSA’s International Quality Assurance Staff Exchange Program, in which TEQSA:
  - hosted delegates from the Chinese Service Center for Scholarly Exchange (August 2017), the Malaysian Qualifications Agency (September 2017), the Council of Private Education/SkillsFuture Singapore (November 2017) and the New Zealand Qualifications Authority in (November 2017)
  - staff members were hosted by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) and NIAD-QE, Japan (November 2017)
- participation in the QBBG annual meeting in Hong Kong in October 2017
- participation in the Council of Higher Education (CHEA) and CHEA International Quality Group (CIQG) meetings in Washington, United States of America in January 2018
- participation in INQAAHE Biennial Forum and Board Meeting in Mauritius in May 2018
- participation in the annual Going Global conference, for leaders of international education, in Kuala Lumpur, Malaysia in May 2018
- participation in the Australia India Education Council’s workshop on online education, in June 2018.

Staff from agencies in China, Indonesia, Japan, Malaysia, New Zealand, Singapore, Sweden, Thailand, and the Philippines were also welcomed for visits to TEQSA during 2017–18.

The agency has established a strong reputation in the sector worldwide, and works with its international quality assurance partners on a regular basis to build capacity.

TEQSA signed or renewed MoCs with a number of peak international bodies in 2017–18, as listed in Table 1.

More detail on collaboration with stakeholders can be found under Goal 3: Constructive and collaborative relationships with governments, higher education providers, students and other stakeholders.

Goal 2: Efficient, effective, responsive, risk-based quality assurance and regulatory activities

Approximately 70 per cent of provider respondents to the 2018 stakeholder survey rated TEQSA’s performance as a regulator over the last 12 months as good or excellent.

When the risk ratings of providers are compared with their responses, 87 per cent of the providers rated as low risk to students responded that TEQSA’s overall performance was good or excellent. Of the providers rated as high or moderate risk to students, only 62 per cent rated TEQSA’s overall performance as a regulator as good or excellent.

Performance Indicator 2.1

Quality assurance and regulation does not unnecessarily impede the efficient operation of higher education providers.

High risk providers

In October 2017, the agency published the TEQSA high risk provider policy, which was developed using comprehensive datasets to guide risk analysis and regulatory interventions.

The policy establishes a set of principles to inform TEQSA’s regulation of providers identified as high risk in relation to students or financial position — at the point of identification, as well as in the course of accreditation, renewal of accreditation (re-accreditation) and re-registration assessments. The policy elaborates upon and further specifies the principle, published in TEQSA’s Risk Assessment Framework, that TEQSA may take various forms of action in relation to providers being identified as high risk.

The principles that comprise this policy are intended to ensure that identified provider risk levels drive differential treatment of providers, in line with established good practice in risk-based regulation, and consistent with the basic principles for regulation included in TEQSA’s establishing legislation.

Where a provider is not identified as high risk, reduced evidence requirements apply in subsequent assessments in accordance with TEQSA’s Core+ approach.

For more information about the TEQSA high risk provider policy www.teqsa.gov.au/for-providers/resources/teqsa-high-risk-provider-policy
Stakeholder survey results

In the 2018 stakeholder survey, 56 per cent of provider respondents rated TEQSA as good or excellent in relation to regulation not impeding efficient operation. This is a decrease from 66 per cent in the TEQSA Stakeholder Survey 2017. However, 94 per cent of peak, professional and student bodies surveyed in 2018 rated TEQSA as good or excellent. This is an improvement from 92 per cent in 2017.

It is worth noting that there was a significant difference in the response of providers based on their risk rating in relation to students. Of provider respondents with a low risk rating, 63 per cent rated TEQSA as good or excellent in relation to streamlining to reduce burden. However, of the provider respondents with a high or moderate risk rating, 38 per cent rated TEQSA as good or excellent on that measure.

The main reasons given for the deterioration in stakeholder satisfaction were: slow response times, the high turnover in case managers, and the regulator-provider relationship in the case of some providers. The turnover in case managers was primarily a result of previous reductions in average staffing level and continued reliance on contract staff to sustain the agency’s core work. As in 2016–17, TEQSA experienced a high turnover of contract staff and a continued loss of corporate memory and experience through turnover of permanent staff.

Performance Indicator 2.2:

TEQSA’s decisions are provided in a timely manner, clearly articulating the reasons for decisions, and TEQSA gives all higher education providers a reasonable opportunity to address matters relevant to a decision by TEQSA before TEQSA makes a decision that affects that provider.

In 2017–18, the number of assessments decided decreased compared with 2016–17, and although the overall number of days to decision did not deteriorate noticeably from the previous year, there was a marked increase in the time taken to make decisions on applications for re-registration of existing providers and accreditation of new courses from registered providers.

The main factors influencing these results were: the diversion of assessment staff to manage the increased number of compliance assessments, the workload related to matters under consideration by the AAT, the continuing loss of experienced assessment staff and turnover of contractors, and the time taken for staff to familiarise themselves with operationalising the HES Framework 2015.

Caseload in 2017–18

In 2017–18, the decrease in the number of applications received resulted in a reduced number of assessments (132) carried over into 2018–19, in comparison with the 208 assessments carried over into 2017–18. Table 2 sets out TEQSA’s caseload over the last three years.

<tr>
<td>TOTAL (completed assessments)</td>
<td>381</td>
<td>374</td>
<td>269</td>
</tr>
</tbody>
</table>

Table 3 sets out the total number of assessments completed and decisions made in 2017–18. The decrease in the number of assessments completed in 2017–18 is partly a reflection of the decrease in the caseload for the year. In 2017–18, 269 assessments were completed, consisting of 192 decisions made and 77 applications that were either withdrawn by the applicant or cancelled by TEQSA. Most of the withdrawals occurred after TEQSA had completed its assessment but before a decision was made.

Six CRICOS registration assessments and 11 CRICOS re-registration assessments were also completed in 2017–18.

In addition, TEQSA completed 605 other assessments of applications made under the ESOS Act, such as changes to student capacity and relocation/new delivery site, compared with 685 assessments of this type in 2016–17.

Meeting caseload timeframes

In 2017–18, although the overall median processing time did not deteriorate markedly compared with 2016–17, this was primarily due to the reduced caseload for the year and an improvement in the time taken for decisions about re-accreditation of existing courses.
Table 4 provides information regarding the time taken for assessments where a decision was made in 2017–18, in comparison with previous years.

In 2017–18, the overall time taken to make decisions was consistent with 2016–17. However, this was largely due to a reduced caseload and an improvement in the time taken for decisions regarding applications for re-accreditation. In the case of all other assessment types, the median processing time increased (see Table 5).

Regarding applications for registration and accreditation of courses from prospective providers, the increase in the median processing time was primarily a consequence of the need in late 2017 to extend the legislative deadline for nine decisions under section 21 of the TEQSA Act and 26 decisions under section 49. The extensions to legislative deadlines were due to the continuing impact of the large influx of applications submitted prior to the commencement of the HES Framework 2015.

For accreditation of new courses from registered providers, the timeframe for decisions is set in legislation and the time taken increased substantially in 2017–18 compared with 2016–17.

The increase in the median processing time for applications for course accreditation from existing providers was primarily due to the result of the need to divert assessment staff to undertake an increase in the number of compliance assessments, the adjustment by both providers and assessment staff to the HES Framework 2015 and continuing turnover of assessment staff.

Under its governing legislation, TEQSA is obliged to provide particular forms of advice or complete specific processes within specified timeframes. Table 6 contains information about TEQSA’s performance in meeting legislative deadlines required by the TEQSA Act.
Table 6: Performance in 2017–18 against the requirements of the TEQSA Act

</thead>
<tbody>
<tr>
<td>Not achieved</td>
<td>TEQSA made decisions on 16 out of 19 internal review applications within the required timeframe. For three applications, decisions were not made within 90 days after receiving the application for review.</td>
</tr>
</tbody>
</table>

There was a slight improvement in the ratio of APS staff to contractors in the assessment teams compared with the previous financial year from 1.5 APS staff for each contractor to 1.7 APS staff for each contractor. There was also a slight improvement in staff tenure in the assessment teams with 74 per cent of staff having been with the agency for 12 months or more as at 30 June 2018, compared with 53 per cent with 12 months of experience or more as at 30 June 2017.

The continuing deterioration in the time taken to make key decisions is reflected in the 2018 stakeholder survey results in the falling satisfaction of providers, where 52 per cent of principal contact respondents rated TEQSA in relation to timeliness of information after making a decision as good or excellent. This compared with 55 per cent in the 2017 survey and 77 per cent in the 2016 survey.

See the discussion about Human Resources in Section 4: Management and accountability for more information about TEQSA’s staff turnover.
Increase in the number of compliance assessments

In 2017–18, in addition to assessing applications, TEQSA undertook nine compliance assessments of registered higher education providers as a result of increased risk of non-compliance with the HES Framework or the National Code. Compliance assessments were initiated by the agency where it considered there were serious risks to student interests or the reputation of the sector. As of 30 June 2018, seven of these compliance assessments were ongoing.

Prior to late 2017, there was no dedicated team in the agency to undertake compliance assessments and therefore resources were diverted as necessary from the application-based assessment areas. Following the additional funding announced in the MYEFO 2017–18 and a review of workload across assessment groups of the agency, a dedicated team was established to undertake compliance assessments and to manage student complaints about providers.

Adverse decisions

TEQSA informs applicants of proposed adverse decisions, including the reasons for those proposed decisions, and no decision is made until the applicant has had an opportunity to respond to the proposed adverse decision. In the 2018 stakeholder survey, close to 64 per cent of all respondents rated TEQSA as good or excellent in terms of providing a reasonable opportunity to address matters relevant to a regulatory decision.

In 2017–18, the proportion of re-registration assessments with an adverse decision increased compared with the last three years (Table 7). Adverse decisions include imposition of conditions, cancellation of registration, or rejection of an application. In 2017–18, 56 per cent of TEQSA’s decisions about re-registration were adverse compared with 50 per cent in 2016–17.

</tr>
</tbody>
</table>

In addition, although six out of the nine decisions made on applications for re-registration (66 per cent) in 2017–18 were to grant the renewal for the maximum seven-year period, two of these decisions included the imposition of conditions on the registration of the providers.

In relation to applications from prospective providers, only three applicants were granted registration and all were granted less than the maximum seven-year period. A total of 30 applications from prospective providers were assessed during 2017–18, with 17 applications withdrawn by the applicants and 10 applications rejected. Of the 10 applications rejected, eight applied for external review in the AAT during 2017–18.
External review matters

In 2017–18, TEQSA was a party in 17 external review matters in the AAT relating to regulatory decisions.

In addition to two matters carried over from 2016–17, 15 new matters commenced in the AAT in 2017–18. Six of the matters were resolved by agreement with the applicant, three matters were dismissed following withdrawal by applicants for initial registration and eight matters were carried into 2018–19. The most common areas of the HES Framework in relation to the matters involved corporate and academic governance and staffing (including teaching staff), academic leadership, and support staff. Other issues related to course content, staff scholarship/professional development and financial viability.

These external review matters are the agency’s most resource-intensive work, involving case managers and the Legal Group. In 2017–18, matters resolved in the tribunal took an average of 172 days, with withdrawn matters taking less time (73 days) than matters resolved by agreement (214 days).

In 2017–18, the agency reviewed and made technical changes to the risk assessment framework, process, risk tools and systems to align with the HES Framework 2015. TEQSA published its updated TEQSA’s Risk Assessment Framework in April 2018. As at 30 June 2018, the revised risk assessment framework on the TEQSA website had been viewed over 1,800 times.

For more information about TEQSA’s Risk Assessment Framework

Cycle 5 annual risk assessment

In late 2017, TEQSA completed the Cycle 5 annual risk assessment using Higher Education Information Management System (HEIMS) data from the department that had been validated. All providers were sent a risk assessment report for this risk cycle.

In 2018, a combination of factors contributed to TEQSA’s decision to delay risk assessments for standalone ELICOS and Foundation Studies providers including: the decision to establish a new ESOS/CRICOS team, the release of revised ELICOS Standards (which took effect in January 2018), and the timing of CRICOS re-registration for over 25 per cent of providers.

The agency varies the evidence requirements for its assessments based on all available information about each registered provider’s organisational characteristics and risk profile. Analysis of TEQSA’s regulatory decisions has demonstrated a strong alignment between the risk profile of a provider and the outcomes of regulatory decisions.

Performance Indicator 2.3:

Quality assurance and regulatory actions undertaken by TEQSA are proportionate to the risks being managed.

Risk Assessment Framework

TEQSA’s Risk Assessment Framework represents a robust approach to assessing risk. The framework is a key tool for providing effective oversight of the quality and reputation of Australian higher education.

*Condition, rejection of application or < 7 years of accreditation

Table 8 demonstrates the relationship between the risk profile of a provider and the outcome of regulatory decisions about re-registration applications for 2015–16, 2016–17 and 2017–18. The analysis reveals a strong correlation between the risk ratings of providers and the outcomes of assessment of re-registration applications.

Table 9 demonstrates the relationship between the risk profile of a provider and the outcome of regulatory decisions about course accreditations and re-accreditations. In the case of course accreditations and re-accreditations, there was a very small number of applications for course accreditation or re-accreditation in 2017–18 from providers that are low risk and do not have the authority to accredit their own courses. As a result, the small dataset has impacted the robustness of the analysis.
Stakeholder survey results

In the 2018 stakeholder survey, 52 per cent of provider respondents rated TEQSA as good or excellent in relation to whether regulatory actions are proportionate to risks. This is a decrease from 57 per cent in the TEQSA Stakeholder Survey 2017.

It is worth noting that there was a significant difference in the responses of providers based on their risk rating in relation to students. In the case of provider respondents with a low risk rating, 73 per cent rated TEQSA as good or excellent in relation to regulatory action being proportionate to risk and in the case of provider respondents with a high or moderate risk rating, 30 per cent rated TEQSA as good or excellent on that measure.

Although the overall provider survey responses show a deterioration in relation to actions being proportionate to risks, over 93 per cent of peak, professional and student bodies surveyed rated TEQSA as good or excellent.

Regulatory principles

In assessing applications and making regulatory decisions, TEQSA takes the three basic principles for regulation under the TEQSA Act into consideration: necessity, risk and proportionality. In 2017–18, the agency developed further guidance to support case managers in applying these regulatory principles.

Self-accrediting authority

In 2017–18, the first courses that had previously been assessed by TEQSA were submitted for re-accreditation. In order to reduce duplication of evidence requirements and assessment of re-accreditation applications on closely-related courses, the agency implemented a course renewal rationalisation plan and developed advice for providers seeking to apply for SAA. A related objective is to support providers that have a track-record of reliably developing and approving courses that do not raise material issues in TEQSA’s assessments and encouraging those providers to apply for at least partial SAA.

In 2017–18, TEQSA granted one provider partial SAA.

In order for TEQSA to monitor significant changes and identify any emerging issues in relation to protecting student interests and the reputation of the sector, a core set of data is required for all providers in the sector. The use of a core set of data by multiple areas of government also helps reduce the regulatory burden on providers.

Working with the department

In order to monitor the risks to students, TEQSA collects data submitted through the department’s HEIMS. For providers that do not report through HEIMS, TEQSA collects information through a PIR under section 28 of the TEQSA Act. In 2017–18, TEQSA staff continued to participate in meetings with the department to ensure the national data collection is fit for purpose and available when required for annual risk assessments.
Performance Indicator 2.4:

TEQSA’s compliance and monitoring approaches are streamlined and coordinated.

Working with the Higher Education Standards Panel

The HESP is responsible for developing and monitoring the operation of the HES Framework. The TEQSA Commissioners and CEO met regularly with the HESP members during 2017–18, and discussions included:

- the regulatory impact on providers in relation to professional accreditation
- the sector responses to allegations of sexual assault and sexual harassment
- the review of the impact of the TEQSA Act.

The HESP also provided external validation of TEQSA’s self-assessment of its 2016–17 performance against the RPF.

Working with peak and professional bodies

TEQSA currently has 25 agreements in place with industry bodies. Agreements with the following bodies were signed or renewed in 2017–18:

- Australian and New Zealand Podiatry Accreditation Council
- Australian Psychology Accreditation Council
- CPA Australia Limited
- Financial Planning Education Council – Financial Planning Association of Australia
- Optometry Council of Australia and New Zealand
- The Financial Adviser Standards and Ethics Authority
- Universities Admissions Centre.

In 2017–18, the agency continued its quarterly meetings with CPA Australia Limited to share information about providers of accounting courses.

The agency also contributed to discussions on professional accreditation with the HESP and submitted a response to the Independent Review of the National Registration and Accreditation Scheme for health professions with a view to further developing models of professional accreditation that reduce duplication in requirements for providers.
Working with international quality agencies

In late 2017, TEQSA participated in the assessment of a course by the HKCAAVQ. The course, offered by an Australian university, was delivered through a third party in Hong Kong.

The joint assessment represented a pilot program aimed at determining the equivalency of the accreditation processes of the two agencies and the information gathered during this exercise will contribute to TEQSA’s assessment of the university’s application for re-registration, to be undertaken in 2018. It also provided an opportunity to share information and learn from international counterparts as part of TEQSA’s ongoing commitment to continuous improvement.

Amendments to legislation

In 2017–18, there were a number of important changes to legislation affecting TEQSA.

In August 2017, the Education Legislation Amendment (Provider Integrity and Other Measures) Act 2017 commenced, which amended the TEQSA Act, ESOS Act and Higher Education Support Act 2003 to improve TEQSA’s ability to assure the quality of Australian higher education by:

- enabling TEQSA to take account of the history of related entities, as well as the history of a provider’s education delivery
- introducing a requirement that all registered higher education providers, and key personnel for those providers, must be fit and proper persons
- clarifying the definition of ‘vocational education and training course’ to make clear that courses which lead to Diplomas, Advanced Diplomas, Graduate Diplomas and Graduate Certificates are required to be accredited under the TEQSA Act or under vocational education laws
- clarifying that TEQSA may delegate its functions or powers to the Chief Executive Officer
- improving information-sharing arrangements under the ESOS Act
- introducing more stringent requirements for applications to access FEE-HELP
- strengthening compliance requirements for FEE-HELP in relation to marketing, admissions and financial viability.

Performance Indicator 2.5:

Effective implementation of the requirements of regulatory responsibilities is achieved, including the TEQSA and ESOS Acts.

Review of the impact of the TEQSA Act

Throughout 2017–18, TEQSA provided the department with further advice in relation to the review of the impact of the TEQSA Act. The agency is awaiting finalisation of the Australian Government’s response to the report of the review.
On 1 January 2018, amended versions of the ESOS National Code and the ELICOS Standards commenced. This occurred after extensive consultation between the department, education quality assurance agencies (including TEQSA), other government agencies and peak bodies representing education providers.

In 2017–18, TEQSA established a new team specialising in ESOS/CRICOS assessments and that team has developed an implementation plan to address the key changes made by these amendments, including staffing and admissions arrangements for ELICOS, improving the information provided to international students and reflecting up-to-date methods of educational delivery.

In the 2018 stakeholder survey, 52 per cent of provider respondents rated TEQSA good or excellent in relation to whether it has a streamlined and coordinated approach. This is a decrease from 55 per cent in the TEQSA Stakeholder Survey 2017. However, 80 per cent of peak, professional and student bodies surveyed in 2018 rated TEQSA as good or excellent. This is a decline from 85 per cent in 2017.

Performance Indicator 2.6:
The quality assurance framework continues to be improved in consultation with stakeholders.

In 2017–18, the agency continued to seek opportunities for continuous improvement of its regulatory processes. Consultation with stakeholders was a valuable tool for not only gathering feedback, but also for seeking the sector’s view on any proposed changes.

Following consultation with the higher education sector on TEQSA’s proposed changes to its approach to public reporting on the National Register of Higher Education Providers (National Register), the agency announced in late 2017 that the proposed changes would take effect from 1 January 2018. These changes aimed to improve transparency of TEQSA’s regulatory decision, and included:

- the publication of decisions to reject applications for initial registration and initial course accreditation prior to the commencement of any external review of the decisions
- the publication of news announcements or media releases about decisions
- corresponding changes to the TEQSA National Register Guidelines.

For more information about the policy on public reporting of TEQSA’s decisions www.teqsa.gov.au/for-providers/resources/policy-public-reporting-regulatory-decisions

In October 2017, TEQSA consulted with the higher education sector on proposed changes to matters that TEQSA may take into account when determining whether a person or provider is fit and proper, and expects to finalise its new approach early in 2018–19.

In the 2018 stakeholder survey, 57 per cent of provider respondents rated TEQSA as good or excellent in relation to whether it continues to improve its regulatory framework. This is a decrease from 61 per cent in the TEQSA Stakeholder Survey 2017. However, 79 per cent of peak, professional and student bodies surveyed in 2018 rated TEQSA as good or excellent. This is an improvement from 67 per cent in 2017.
Goal 3: Constructive and collaborative relationships with governments, higher education providers and other stakeholders

Performance Indicator 3.1:
TEQSA’s communication with higher education providers is clear, targeted and effective.

During 2017–18, the agency engaged with the higher education sector through its website, annual conference and other activities.

TEQSA website
In November 2017, the new TEQSA website was successfully launched, incorporating feedback from external stakeholders including current and prospective providers, students, and peak/professional bodies, as well as internal stakeholders.

From the website’s launch to 30 June 2018, there were over 600,000 page views and close to 90,000 visitors.

In 2017–18, TEQSA also engaged with the sector through:
- a monthly external newsletter, with a subscriber count of 3,100
- social media channels, including Twitter and LinkedIn.

TEQSA conference and other sector engagement events
The second TEQSA Conference, with the theme of Students, Quality, Success, was held from 28 November to 1 December 2017. The conference program was well received with strong representation across all areas of the higher education sector, including peak bodies, international agencies and students. Feedback about the 2017 conference was very positive, with over 80 per cent of provider respondents to the stakeholder survey rating the program, quality of speakers, relevance of material and opportunity for interaction as good or excellent.

The conference received 784 registrations over the three days and a total of 115 presenters participated in 70 plenary and concurrent sessions. Delegates came from 225 organisations, including 65 student delegates and nine international delegates. Students also featured prominently in the conference sessions, adding a student perspective to discussions.

In 2017–18, TEQSA commenced an occasional forum series, with the first on student attrition attracting over 200 attendees. A second forum on combatting contract cheating attracted 130 attendees. Both events received positive feedback with requests for more forum and workshop events.
In 2017–18, the agency also held the first of two Higher Education Provider Roundtable events that addressed the areas TEQSA could improve on, as identified in the TEQSA Stakeholder Survey 2017. This engagement was focused on non-university higher education providers and allowed an open discussion with members of the TEQSA Commission and senior management staff on key concerns for these providers in relation to:

- timeliness of decision making
- inconsistency in case manager approach
- appropriateness of the approach to the annual risk assessment
- standing of the TEQSA guidance notes.

The roundtable also gave providers an opportunity to suggest improvements to TEQSA’s processes. Feedback related in particular to engagement with TEQSA assessment staff and the selection of experts from a broader cross-section of the sector.

TEQSA Commissioners and senior staff were frequently invited to present at higher education conferences and events in 2017–18. Agency representatives presented at, or attended, more than 30 events to discuss TEQSA’s approach to quality assurance and regulation.

### Stakeholder survey results

In the 2018 stakeholder survey, 64 per cent of provider respondents rated TEQSA good or excellent in relation to whether its communication with higher education providers is clear, targeted and effective. This is a decrease from 72 per cent in the 2017 stakeholder survey. However, 87 per cent of peak, professional and student bodies surveyed in 2018 rated TEQSA as good or excellent. This is an improvement from 85 per cent in 2017.

---

**Performance Indicator 3.2:**

TEQSA has enhanced engagement with students in consultation with peak student bodies, and other stakeholders.

---

In 2017–18, the agency continued to strengthen relationships with students, peak student bodies and other stakeholders.

Over 85 per cent of peak, professional and student body respondents to the 2018 stakeholder survey rated TEQSA’s communication with their organisation as good or excellent.

### Engagement with student representatives

In late 2017, TEQSA established the Student Expert Advisory Group, which aims to provide the agency with advice on approaches and strategies to engage students in regulatory and quality assurance activities. The inaugural meeting of the group was held in March 2018 where the topics discussed included: addressing the issue of sexual assault and sexual harassment at Australian higher education providers, the role of TEQSA and international student complaints, and how the agency can continue to engage with the wider higher education student community.

The feedback from the meeting was used to develop a student engagement strategy, which will assist TEQSA to meet key objects of the TEQSA Act (which include protecting student interests and ensuring students have access to information relating to higher education in Australia).

In 2017–18, TEQSA also formalised a number of relationships with major student representative bodies by signing MoUs with the:

- National Union of Students on 21 September 2017
- Council of Australian Postgraduate Associations on 10 November 2017
- Council for International Students Australia on 29 November 2017
- National Aboriginal and Torres Strait Islander Postgraduate Association on 30 November 2017.

Engagement of external experts
When undertaking assessments, TEQSA staff may engage external expertise in a range of discipline areas and in specialised higher education learning and teaching methodologies. To enable engagement of sector expertise, TEQSA established a Register of Experts that staff use to identify subject matter experts to assist in assessing course accreditation applications. In 2017–18, the agency also sought advice from experts in some registration assessments. Table 10 shows the number of work assignments completed by experts in 2017–18 compared with previous years.

Table 10: Work assignments completed by experts

<table>
<thead>
<tr>
<th>FINANCIAL YEAR</th>

</tr>
<tr>
<td>2016–17</td>
<td>191</td>
</tr>
<tr>
<td>2017–18</td>
<td>191</td>
</tr>
</tbody>
</table>

In 2017–18, the agency continued its work on a project to review the TEQSA Register of Experts, which will consider all aspects of engagement with this group, as well as improve the quality and efficiency of TEQSA’s interactions with experts.

Consultation with peak and professional student bodies
TEQSA has engaged with peak and professional bodies through an ‘MoU approach’.

TEQSA and professional bodies with links to Australian higher education have a mutual interest in maintaining and improving the quality and reputation of the sector and, in 2017–18, TEQSA signed MoUs with 36 organisations.

The agency and its MoU partners aim to work together to share data, intelligence and accreditation loads, reduce duplication and streamline processes and undertake joint assessments where possible.

For more information about TEQSA’s engagement with professional bodies visit [www.teqsa.gov.au/engagement-professional-bodies](http://www.teqsa.gov.au/engagement-professional-bodies)

See Performance Indicator 2.4 for more information about TEQSA’s interactions with peak and professional bodies.
Performance Indicator 3.3:
TEQSA’s dealings with higher education providers are open, transparent and consistent.

Publication of regulatory decisions
From January 2018, the agency began publishing its decisions to reject applications for initial registration on the TEQSA website www.teqsa.gov.au/unsuccessful-applications. TEQSA also began publishing decisions to reject new course applications by registered providers on the National Register.

See Performance Indicator 2.6 for more information on changes to TEQSA’s approach to public reporting.

National Register of Higher Education Providers
TEQSA is required by section 198 of the TEQSA Act to establish and maintain a National Register, which lists TEQSA’s regulatory decisions and reasons for those decisions, on the TEQSA website www.teqsa.gov.au/national-register.

In 2017–18, four new providers were added to the National Register, including one registration decision made by the AAT. As of 30 June 2018, there were 168 providers registered with TEQSA as per Table 11 and there were 1,593 TEQSA-accredited courses listed on the National Register.

As of 30 June 2018, there were 168 providers registered with TEQSA as per Table 11 and there were 1,593 TEQSA-accredited courses listed on the National Register.

Table 11: National Register breakdown as at 30 June 2018

* includes for-profit, not-for-profit and TAFE providers
Almost 75 per cent of provider respondents to the 2018 stakeholder survey rated the quality of information provided on the National Register of Higher Education Providers as good or excellent. As at 30 June 2018, the National Register had been viewed more than 230,000 times since the launch of the new TEQSA website in November 2017.

For-profit, not-for-profit and TAFE providers

In 2017–18, in addition to the Higher Education Provider Roundtable session reported under Performance Indicator 3.1, TEQSA’s Commissioners, CEO and staff met with for-profit, not-for-profit, and TAFE providers, both individually and with their peak bodies. These providers have also been invited to TEQSA events, including the 2017 TEQSA Conference and occasional forums.

In the 2018 stakeholder survey, 62 per cent of provider respondents rated TEQSA as good or excellent in relation to whether it is open, transparent and consistent in its dealings. This is a decrease from 68 per cent in the TEQSA Stakeholder Survey 2017.

However, 91 per cent of peak, professional and student bodies surveyed in 2018 rated TEQSA as good or excellent. This is a slight improvement from 89 per cent in 2017.

Performance Indicator 3.4:
Increased synergies developed with other agencies and contributions to collaborative goals.

Information sharing

In 2017–18, TEQSA continued to strengthen collaboration with Commonwealth agencies and regulatory agencies of other countries through the sharing of information relevant to regulation. The agency participated in meetings of the Education Regulatory Immigration Committee (ERIC) and the working group to exchange information about providers, prospective providers and their related entities.

See Performance Indicator 1.3 for more information about the agency’s MoCs with international regulatory agencies.

Collaboration with ASQA

TEQSA and ASQA continued to work together in 2017–18 to share information about existing dual-sector providers and about VET providers seeking entry into the higher education sector. The two agencies also progressed joint policy positions, exchanged intelligence, and oversaw the execution of joint strategic initiatives. Although TEQSA and ASQA are required to assess providers under different sets of quality standards, the two agencies continued to apply coordinated approaches to manage all CRICOS-related matters for dual-sector providers and this has now expanded to the sharing of increased information on providers registered with both agencies.
In 2017–18, a revised approach for coordinated assessment of dual-sector providers was negotiated with ASQA to focus on a streamlined model with periodic sharing of findings rather than joint assessment.

TEQSA and ASQA have a joint register of the risk profiles of dual-sector providers. The register is used by agency staff to establish evidence requirements and inform the scope of assessment. In 2017–18, the joint ASQA-TEQSA risk register was actively maintained and utilised to further inform TEQSA’s risk-based regulatory approach.

**Admissions transparency**

Following the release of the HESP report *Improving the Transparency of Higher Education Admissions* in October 2016, the Admissions Transparency Implementation Working Group, a sector-led working group, developed the Admissions Transparency Implementation Plan to respond to the Higher Education Standards Panel’s recommendations. In 2017–18, the Implementation Working Group delivered an implementation plan.

In the 2017–18 Budget, TEQSA was provided with $3.3 million over four years for the monitoring of improved transparency of admissions processes, including a formative evaluation. TEQSA completed the formative evaluation of providers’ implementation of improved admissions transparency in October 2017 and published *Advice on Admissions Transparency* for providers in February 2018.

The agency has engaged with the sector on good practice guidance for meeting the relevant standards relating to admissions transparency through:

- the publication of *Advice on Admissions Transparency* in February 2018
- forums held in Adelaide, Melbourne, Perth, Sydney and Brisbane in March and April 2018 for administrators responsible for the implementation of admissions transparency
- the release of a checklist, which was developed in response to provider requests, to support the implementation of admissions transparency.

Further work to monitor and report on admissions transparency in the higher education sector, with a comprehensive review and evaluation of the sector’s response to the HESP’s recommendation, will be completed in future years.

In 2017–18, the agency continued its efforts to monitor and support providers in implementing the HES Framework 2015. In particular, TEQSA engaged with prospective providers through:

- a joint workshop with Council of Private Higher Education (COPHE) on applying for registration, held to assist prospective providers to prepare applications of the required quality
- targeted individual meetings with all prospective providers that had indicated an intention to apply for registration in 2018.

**Guidance notes**

TEQSA endeavours to provide advice and greater clarity for providers when interpreting and applying the HES Framework 2015 through its publication of guidance notes. In 2017–18, TEQSA published three new guidance notes. Between the launch of the new TEQSA website in November 2017 to 30 June 2018, there were over 40,000 page views of information about TEQSA guidance notes.

Over 80 per cent of provider respondents to the 2018 stakeholder survey rated TEQSA’s guidance and support materials as good or excellent in terms of the relevance, usefulness, quality and quantity of the information as well as the ease of access to that information.

---

**Analysis of TEQSA’s financial performance**

For the 2017–18 financial year, the agency recorded a total comprehensive loss of $0.53 million, which is $0.59 million or 52.7 per cent lower than the deficit of $1.12 million in 2016–17. The decrease in operating deficit is primarily attributed to the timing of the commencement of the compliance and investigations function associated with the additional funding of $1.9 million given in the MYEFO 2017–18.

The 2017–18 operating deficit is only $0.15 million lower than the estimated deficit of $0.68 million as set out in the 2017–18 Portfolio Budget Statements. Despite the additional funding given at MYEFO, supplier expense has increased due to legal expenditure associated with more applications for review of TEQSA decisions in the AAT, higher than expected utilisation of contractors and external experts to address the increased workload, and the backlog of assessments from 2016–17. This resulted in the small variance between the actual and estimated operating deficit.

Excluding the unfunded depreciation and amortisation expenses of $0.87 million, TEQSA achieved an operating surplus of $0.34 million as against an operating deficit of $0.51 million in 2016–17.
MANAGEMENT AND ACCOUNTABILITY

Corporate governance
Human resources
Financial management
SECTION 4: MANAGEMENT AND ACCOUNTABILITY

Corporate governance
TEQSA’s corporate governance framework incorporates:

- regulatory and management decision-making bodies
- an integrated planning framework
- systems, policies and directives such as the Enterprise Risk Management Framework, the internal control framework, and accountable authority instructions
- an ethical and accountable organisational culture
- transparency in public reporting.

Decision forums and committees

Accountable authority
Section 132 of the TEQSA Act establishes the Commissioners as the accountable authority for the purposes of the PGPA Act. This confers various responsibilities and powers on the accountable authority to promote high standards of accountability and performance. As the accountable authority, TEQSA Commissioners are responsible for the governance of TEQSA’s operations under the PGPA Act.

In 2017–18, Commissioners met regularly as the accountable authority to review performance against the corporate plan and received monthly reports on the assessment workload and financial performance.

Commission meetings
The TEQSA Commission is responsible for making regulatory decisions, setting strategic directions, monitoring risk in the sector, and deciding on matters relating to the development of TEQSA’s quality assurance and regulatory framework, and its management of strategic relationships with key stakeholders.

In 2017–18, the Commissioners met on a fortnightly basis to consider and make decisions on regulatory matters.

Senior management team meetings
The Senior Management Team (SMT) comprises the Chief Executive Officer (CEO) and senior managers. The role of the SMT is to guide the ongoing development of TEQSA’s management and administration processes and policies. It is also responsible for developing, implementing, coordinating and overseeing the agency’s corporate plan and operational activities and projects. The SMT reviews TEQSA’s performance against the objectives set out in the corporate plan and makes regular reports to the Commission as the accountable authority.
Additionally, the SMT is responsible for:

- the development, management and monitoring of the TEQSA Budget, including capital investments
- advising Commissioners on developments, including amendments to and implementation of, regulatory approaches and processes
- the development and approval of corporate policies and procedures for the recruitment, training, development, management and performance of the agency’s staff.

In 2017–18, the Senior Management Team met fortnightly and received regular reports, including quarterly progress reports against the operational plan.

Audit committee

TEQSA’s Audit Committee has been established in compliance with section 42 of the PGPA Act and operates under an Audit Committee Charter approved by the accountable authority. The committee comprised two external members (including the Chair) appointed by the accountable authority and a TEQSA Commissioner.

The Audit Committee’s role is to provide independent assurance to the accountable authority on TEQSA’s financial and non-financial performance reporting responsibilities, risk oversight and management and system of internal control. This includes reviewing the proposed internal audit coverage to ensure the approach is focused on TEQSA’s key areas of financial and operational risk.

In 2017–18, two internal audits were carried out:

- a review of the implementation and integration of TEQSA’s procurement framework throughout the agency
- a review of TEQSA’s provider registration and course accreditation processes.

In 2017–18, the Audit Committee met on a quarterly basis.

Security committee

TEQSA’s Security Committee comprises the CEO, the Director Corporate, the Agency Security Adviser and the Information Technology Security Adviser. The committee meets quarterly, focuses on all aspects of protective security affecting the agency, and assists the agency to meet its compliance, risk management, business continuity management and reporting requirements under the Australian Government Protective Security Policy Framework.

Planning and management

Corporate planning

The TEQSA Corporate Plan 2017–21 was:

- submitted to the Minister by 30 April 2017, as required under the TEQSA Act
- approved in May 2017
- published on the TEQSA website by 31 August 2017
- provided to the Minister for Finance.
Enterprise Risk Management Framework
TEQSA accepts that there may be risk in any aspect of its operations and that having an appropriate strategy for risk is critical. TEQSA uses a risk-based approach for its day-to-day business and is committed to the continuous improvement of risk management practices in line with the Commonwealth Risk Management Policy and Department of Finance Resource Management Guide 211 (ISO 31000:2009).

TEQSA's Enterprise Risk Management Framework is underpinned by a strong organisational culture, a deep understanding of risk in relation to regulatory matters, a risk management policy and risk appetite statement, an internal control framework, an enterprise risk register, a Fraud Control and Anti-Corruption Plan, and arrangements for staff training and support.

In 2017–18, a mandatory training program was rolled out for staff to complete an updated course on security essentials, as well Australian Government eLearning modules on Fraud Awareness, Introduction to Cyber Security, and Introduction to Risk in the Commonwealth. The agency's Risk Adviser also undertook more detailed training with Comcover.

Protective security
TEQSA's Agency Security Adviser is responsible for coordinating security functions in the agency and providing advice to the CEO, management and staff on security matters. In 2017–18, TEQSA applied appropriate protective security measures, based on its risk profile, to ensure compliance with the majority of the mandatory requirements under the Protective Security Policy Framework. Mitigation plans have been established to address the remainder.

Ethical standards
TEQSA's measures to promote ethical standards within the agency include:
- providing training for all staff in fraud awareness and conflicts of interest
- maintaining policies relating to ethical standards and behaviour relevant to TEQSA's operational context; for example, in relation to email, internet use, fraud and disclosure of information
- building adherence to the Australian Public Service (APS) Code of Conduct and Values into the individual performance and development plans of TEQSA staff.

External scrutiny
TEQSA is subject to external scrutiny by:
- the Office of the Commonwealth Ombudsman
- the Australian National Audit Office
- the AAT
- the Attorney-General's Department
- the Office of the Australian Information Commissioner
- parliamentary committees.

During 2017–18, the Australian National Audit Office, the Commonwealth Ombudsman and parliamentary committees did not issue any reports on the operations of TEQSA. No judicial decisions, decisions of administrative tribunals, or decisions by the Australian Information Commissioner in 2017–18 had a significant impact on the operations of TEQSA.
During 2017–18, TEQSA officials appeared at parliamentary committee hearings for:

- 2017–18 Supplementary Budget Estimates (26 October 2017)

**Fraud control**

The Commonwealth Fraud Control Policy requires that accountable authorities provide a report about fraud annually to their Minister. Section 10 of the *Public Governance Performance and Accountability Rule 2014* requires the agency to take all reasonable measures to prevent, detect and deal with fraud, including by undertaking fraud risk assessments and establishing a fraud-control plan.

TEQSA’s Fraud and Anti-Corruption Plan sets out TEQSA’s policy and approach to fraud control, procedures to effectively manage fraud and corruption risks and incidents, and relevant reporting obligations. The plan, reviewed annually by TEQSA’s Audit Committee, also provides for appropriate training and awareness-raising activities to support TEQSA staff in understanding their responsibilities in relation to fraud control.

TEQSA employees are subject to a robust employment screening process. Ongoing staff commencing with TEQSA are required to be vetted by the Australian Government Security Vetting Agency to obtain a baseline national security clearance.

TEQSA adopts a zero-tolerance policy towards fraud and corruption, and aims to manage the fraud risk to a level as low as is reasonably practicable. The success of the fraud initiatives undertaken by TEQSA to date is reflected in the fact that no fraud incidents occurred during 2017–18. TEQSA will continue to take a proactive role in fraud management, prevention and detection, based on its risk profile and in accordance with the Commonwealth Fraud Control Policy.

**Service charter**

The *TEQSA Service Charter* articulates the agency’s commitment to engaging with stakeholders, its service standards and how it handles complaints. TEQSA believes its quality assurance and regulatory approach should be responsive and service-oriented. To ensure good practice in its handling of complaints, TEQSA ensures students, providers and the general public are informed of options for making complaints about a provider or about TEQSA. More information is contained in this report at Appendix H. TEQSA has begun a review of its arrangements for handling complaints with the intention of further improving this area of service.

More broadly, TEQSA manages its relationships with providers in line with the APS Code of Conduct and Values, which emphasise professionalism and accountability.

In 2017–18, the *TEQSA Service Charter* was reviewed.

**Human resources**

The terms and conditions of employment for non-Senior Executive Service (SES) TEQSA employees are set out in the Tertiary Education Quality and Standards Agency Enterprise Agreement 2018–2021. This new enterprise agreement was voted up by staff in December 2017, approved by the Fair Work Commission, and came into effect on 18 May 2018.

TEQSA maintains a shared-services arrangement with the Productivity Commission for information and communications technology, and payroll services. The arrangement is beneficial for both agencies and for TEQSA’s service delivery, significantly reducing costs.

**Staffing statistics**

As at 30 June 2018 TEQSA employed 31 APS and 26 executive-level staff, including four Office Holders. All were based in Melbourne.

In 2017–18, the agency continued to experience a high attrition rate for APS staff with a turnover rate of 13.3 per cent compared with an APS average of about 7 per cent. In relation to contractors, although the attrition rate improved from the 136 per cent reported for 2016–17, it remained high at 70.7 per cent.

More information on TEQSA’s staffing profile is included at Appendix C.

**Remuneration and other terms and conditions**

The conditions of employment for APS and executive-level employees are set out in the enterprise agreement. It offers competitive terms and conditions of employment, including financial assistance for relevant professional development.

TEQSA Commissioners, including the Chief Commissioner, are appointed by the Minister pursuant to section 138 of the TEQSA Act and are paid the remuneration determined by the Remuneration Tribunal. The CEO of TEQSA is also appointed by the Minister and the CEO’s remuneration is determined by the Remuneration Tribunal.

**Non-salary benefits**

Non-salary benefits provided by the agency to employees include superannuation, home-based computer access, professional development and studies assistance, and flexible working arrangements.

**Performance pay**

TEQSA’s Enterprise Agreement does not include provision for performance pay.

**Performance assessment**

TEQSA has a formal performance management system in place for staff. This assists in:

- clarifying individual employee work tasks, responsibilities and performance
- setting performance expectations and providing feedback
- improving communication between managers and their staff (through performance appraisals)
- providing a basis for determining salary advancement within classifications, identifying learning and professional development needs and opportunities, and identifying and managing underperformance.
Learning committee
The Learning Committee is driven by a community of staff, focusing on information sharing by enhancing understanding and knowledge of strategic and emerging issues in the higher education sector. In 2017–18, TEQSA’s Learning Committee facilitated 15 interactive sessions for staff with presenters from peak bodies, international agencies and internal experts of TEQSA.

Professional development
TEQSA recognises the value of a well-educated workforce and provides staff with learning and development opportunities to develop skills and knowledge for current and future roles and responsibilities. In 2017–18, TEQSA provided staff with the following professional development:

- leadership training for senior managers
- information sessions on the HES Framework 2015
- training in legal writing
- case management system training.

TEQSA’s Enterprise Agreement also provided access for all staff to an annual reimbursement of up to $3000 for the cost of relevant professional development, including fees associated with an approved course of study.

Workplace consultative arrangements
The agency consulted regularly with staff through a number of forums. Regular all-staff meetings provided staff with updates on a range of management and operational issues. Each group within the agency held regular meetings to raise issues and put forward ideas for improving the work environment. In addition, staff were able to provide comment and feedback through the TEQSA Staff Consultative Committee.

Financial management
Grants
TEQSA does not administer a discretionary grants program.

Legal services
TEQSA’s Legal Group provides, or arranges for the provision of, legal services in relation to all aspects of TEQSA’s operations.

Where necessary, the Legal Group obtains additional legal expertise from external legal service providers. The Legal Group ensures that TEQSA complies with the Legal Services Directions and other Commonwealth policies or rules relevant to the provision of legal services.

For more information about TEQSA’s legal services expenditure www.teqsa.gov.au/our-contracts-senate-order-listing
Performance against core purchasing policies
TEQSA adhered to the core policies and principles of the Commonwealth Procurement Rules throughout the reporting period. An appropriate approach to market was made for all procurements covered by the Commonwealth Procurement Rules.

Competitive tendering and contracting
TEQSA’s Accountable Authority Instructions and Procurement Manual require compliance with the Commonwealth Procurement Rules.

All contracts worth more than $10 000 entered into by TEQSA in 2017–18 were lodged on AusTender.

Procurement initiatives to support small business
TEQSA supports small business participation in the Commonwealth Government procurement market. Small and Medium Enterprises (SME) and Small Enterprise participation statistics are available on the Department of Finance’s website.

TEQSA’s procurement practices support small and medium enterprises by using:
- the Commonwealth Contracting Suite for low-risk procurements valued under $200 000
- the Small Business Engagement Principles to effectively engage and communicate with small businesses
- electronic systems to ensure invoices are paid on time and within the 30-day payment terms.

Exempt contracts
No contracts were exempted by the CEO from being published on AusTender on the basis that publication would disclose exempt matters under the Freedom of Information Act 1982.

Australian national audit office access clauses
No contracts were let during the year for $100 000 or more with provisions to exempt Australian National Audit Office access to contractors’ premises.

Fees
TEQSA operates on a partial cost-recovery basis, consistent with Commonwealth Cost Recovery Guidelines. Section 158 of the TEQSA Act states that TEQSA may determine fees for things done in the performance of its functions. Fees collected by TEQSA under cost recovery arrangements are returned to the Australian Government’s Consolidated Revenue. TEQSA cannot determine fees without the Minister’s approval.

TEQSA developed its initial fee schedule based on parameters set by the Australian Government in 2011 and TEQSA’s status as a partial cost recovery agency. In the 2018–19 Budget it was announced that TEQSA will progressively transition from partial cost recovery to a full cost-recovery model over a four-year period.

Information technology

TEQSA’s information technology infrastructure and support is provided by the Productivity Commission under a shared-services agreement.

TEQSA is required to comply with the guidance from the Australian Government Information Management Office Implementation of upgraded accessibility standard across Australian Government websites. This requires TEQSA’s website to conform to Web Content Accessibility Guidelines version 2.0 (WCAG 2.0).

Consultancies

Policy on selecting and engaging consultants

The agency engages consultants where it requires specialist expertise or when independent research, review or assessment is required.

Consultants are typically engaged to investigate or diagnose a defined issue or problem; carry out defined reviews or evaluations; or provide independent advice, information or creative solutions to assist in the agency’s decision making.

Prior to engaging consultants, the agency takes into account the skills and resources required for the task, the skills available internally and the cost effectiveness of engaging external expertise. The decision to engage a consultant is made in accordance with the PGPA Act and related regulations including the Commonwealth Procurement Rules and relevant internal policies.

In 2017–18, the main purposes for engaging consultants were to:

- provide independent assessments, analysis and advice, and apply high level expertise not otherwise available to the agency
- undertake research, studies and modelling exercises.

Annual reports contain information about actual expenditure on contracts for consultancies.

Information on the value of contracts and consultancies is available on the Austender website at www.tenders.gov.au

Consultancy contracts

During 2017–18, ten new consultancy contracts were entered into, involving total actual expenditure of $274,028 (GST inclusive).

In addition, four ongoing consultancy contracts were active during the period, involving a total expenditure of $149,930 (GST inclusive).
Independent auditor’s report
Statement by the accountable authority and Chief Financial Officer
Financial statement
INDEPENDENT AUDITOR’S REPORT

To the Minister for Education

Opinion

In my opinion, the financial statements of the Tertiary Education Quality and Standards Agency for the year ended 30 June 2018:

(a) comply with Australian Accounting Standards – Reduced Disclosure Requirements and the Public Governance, Performance and Accountability (Financial Reporting) Rule 2015; and

(b) present fairly the financial position of the Tertiary Education Quality and Standards Agency as at 30 June 2018 and its financial performance and cash flows for the year then ended.

The financial statements of the Tertiary Education Quality and Standards Agency, which I have audited, comprise the following statements as at 30 June 2018 and for the year then ended:

- Statement by the Accountable Authority and Chief Financial Officer;
- Statement of Comprehensive Income;
- Statement of Financial Position;
- Statement of Changes in Equity;
- Cash Flow Statement;
- Administered Schedule of Comprehensive Income;
- Administered Schedule of Assets and Liabilities;
- Administered Reconciliation Schedule;
- Administered Cash Flow Statement; and
- Notes to and forming part of the financial statements, comprising a Summary of Significant Accounting Policies and other explanatory information.

Basis for Opinion

I conducted my audit in accordance with the Australian National Audit Office Auditing Standards, which incorporate the Australian Auditing Standards. My responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Tertiary Education Quality and Standards Agency in accordance with the relevant ethical requirements for financial statement audits conducted by the Auditor-General and his delegates. These include the relevant independence requirements of the Accounting Professional and Ethical Standards Board’s APES 110 Code of Ethics for Professional Accountants (the Code) to the extent that they are not in conflict with the Auditor-General Act 1997. I have also fulfilled my other responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Accountable Authority’s Responsibility for the Financial Statements

As the Accountable Authority of the Tertiary Education Quality and Standards Agency, the Commissioners are responsible under the Public Governance, Performance and Accountability Act 2013 for the preparation and fair presentation of annual financial statements that comply with Australian Accounting Standards – Reduced Disclosure Requirements and the rules made under that Act. The Commissioners are also responsible for such internal control as the Commissioners determine is necessary to enable the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Commissioners are responsible for assessing the Tertiary Education Quality and Standards Agency’s ability to continue as a going concern, taking into account whether the entity’s operations will cease as a result of an administrative restructure or for any other
reason. The Commissioners are also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

Auditor’s Responsibilities for the Audit of the Financial Statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian National Audit Office Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with the Australian National Audit Office Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

• identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
• obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control;
• evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Accountable Authority;
• conclude on the appropriateness of the Accountable Authority’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity’s ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor’s report. However, future events or conditions may cause the entity to cease to continue as a going concern; and
• evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

STATEMENT BY THE ACCOUNTABLE AUTHORITY AND CHIEF FINANCIAL OFFICER

In our opinion, the attached financial statements for the year ended 30 June 2018 comply with subsection 42(2) of the Public Governance, Performance and Accountability Act 2013 (PGPA Act), and are based on properly maintained financial records as per subsection 41(2) of the PGPA Act.

In our opinion, at the date of this statement, there are reasonable grounds to believe that the Tertiary Education Quality and Standards Agency will be able to pay its debts as and when they fall due.

Professor Nicholas Saunders, AO

Budget Variances Commentary

Statement of Comprehensive Income for the Tertiary Education Quality and Standards Agency

Suppliers
The ASL capping has resulted in the reliance on contractors and experts to address the higher than anticipated regulatory workload and the backlog of assessments from 2016-17. In addition, legal expenditure has risen due to increased legal workload associated with an increased number of applications for review of TEQSA decisions in the Administrative Appeals Tribunal. As a consequence, actual supplier expenses were $1.715 million (31%) higher than budgeted.

Depreciation and amortisation
Capital expenditure on computer equipment and internally developed software was greater than the allocated budget, resulting in actual depreciation and amortisation being $0.197 million (29%) higher than anticipated.

Revenue from Government
Additional funding of $1.874 million was allocated in the 2017-18 MYEFO budget round to enable TEQSA to enhance its compliance capabilities and address immediate resourcing needs associated with an increase in regulatory workload.

#### ASSETS

**Financial assets**
- Cash and cash equivalents: 160, 112, 109
- Trade and other receivables: 6,248, 5,982, 5,096

**Total financial assets**: 6,408, 6,094, 5,205

**Non-financial assets**
- Buildings - leasehold improvements: 3.2A 816, 1,006, 1,045
- Plant and equipment: 3.2A 461, 367, 568
- Intangibles - computer software: 3.2A 1,684, 1,599, 2,197
- Other non-financial assets: 174, 180, 247

**Total non-financial assets**: 3,135, 3,152, 4,057

**Total assets**: 9,543, 9,246, 9,262

#### LIABILITIES

**Payables**
- Suppliers: 3.3A 494, 533, 222
- Other payables: 3.3B 1,265, 1,478, 1,311

**Total payables**: 1,759, 2,011, 1,533

**Provisions**
- Employee provisions: 6.1A 1,490, 1,297, 1,456
- Other provisions: 3.4A 826, 890, 913

**Total provisions**: 2,316, 2,187, 2,369

**Total liabilities**: 4,075, 4,198, 3,902

**Net assets**: 5,468, 5,048, 5,360

#### EQUITY

- Contributed equity: 11,414, 10,463, 11,414
- Retained surplus/(Accumulated deficit): (5,946), (5,415), (6,054)

**Total equity**: 5,468, 5,048, 5,360

The above statement should be read in conjunction with the accompanying notes.

Original Budget reflects the figures in the 2017-18 Portfolio Budget Statements (PBS).
### Budget Variances Commentary

#### Statement of Financial Position for the Tertiary Education Quality and Standards Agency

**Trade and other receivables**
Trade and other receivables were $1.152 million (23%) higher than original budget mainly attributed to the undrawn appropriation from the additional funding allocated in the 2017-18 MYEFO budget round.

**Property, plant and equipment (PPE) and Intangibles**
The net carrying value of PPE and Intangibles were $0.849 million (22%) less than the forecasted net value due to the higher opening balances for the gross book value and accumulated depreciation & amortisation reflected in the budget. As a result, budgeted depreciation was also higher.

**Supplier payables**
The increase in supplier payables of $0.272 million (123%) was driven by the higher than budgeted accrued expenses mainly in respect of the higher than anticipated utilisation of contractors and legal expenditure.

The above statement should be read in conjunction with the accompanying notes.

Original Budget reflects the figures in the 2017-18 Portfolio Budget Statements (PBS).
Accounting Policy

**Equity Injections**
Amounts appropriated which are designated as ‘equity injections’ for a year (less any formal reductions) and Departmental Capital Budgets (DCBs) are recognised directly in contributed equity in that year.

**Restructuring of Administrative Arrangements**
Net assets received from or relinquished to another Government entity under a restructuring of administrative arrangements are adjusted at their book value directly against contributed equity.

**Other Distributions to Owners**
The FRR require that distributions to owners be debited to contributed equity unless it is in the nature of a dividend.

Budget Variances Commentary

**Statement of Changes in Equity for the Tertiary Education Quality and Standards Agency**

**Surplus/Deficit for the period**
The increase in expenditure matched the additional funding allocated in the 2017-18 MYEFO budget round. This resulted in a lower deficit of $0.145 million (21%) than budgeted.

**Cash and cash equivalents at the beginning of the reporting period** 112 116 109

**Cash and cash equivalents at the end of the reporting period** 160 112 109

The above statement should be read in conjunction with the accompanying notes.

Original Budget reflects the figures in the 2017-18 Portfolio Budget Statements (PBS).
**Budget Variances Commentary**

**Cash Flow Statement for the Tertiary Education Quality and Standards Agency**

- **Cash received - Appropriations and Cash used - Section 74 receipts transferred to OPA**
  The appropriations received and cash used for the transfer of Section 74 receipts to the Official Public Account (OPA), were not separately identified but presented on a net basis in the original budget. Net appropriation drawdown was higher than budget by $1.858 million (16%) mainly attributed to increase in supplier expenses.

- **Cash received - Sales of goods and rendering of services**
  The higher level of cash received from sales of goods and rendering of service of $0.125 million (54%) was mainly due to the TEQSA 2017 Conference, which was not included in the budget.

- **Cash received - Net GST received**
  The increase in net GST received of $0.223 million (46%) was primarily due to the higher GST paid to suppliers in line with the increased supplier expenses.

- **Cash used - Suppliers**
  Cash paid to suppliers was higher than budget by $2.225 million (37%) due to a higher than anticipated utilisation of contractors and legal expenditure as well as fluctuations with the timing of payment to suppliers.

- **Cash used - Purchase of property, plant and equipment and intangibles**
  Higher than anticipated costs incurred on the replacement of computer equipment, the TEQSA website redevelopment as well as the CRM system enhancements resulted in the increase in cash used by $0.227 million (36%).

**Accounting Policy**

*Administered Cash Transfers to and from the Official Public Account*

Revenue collected by TEQSA for use by the Government rather than TEQSA is administered revenue. Collections are transferred to the Official Public Account (OPA) maintained by the Department of Finance. Conversely, cash is drawn from the OPA to make payments under Parliamentary appropriation on behalf of Government. These transfers to and from the OPA are adjustments to the administered cash held by TEQSA on behalf of the Government and reported as such in the schedule of administered cash flows and in the administered reconciliation schedule.

Overview

The Basis of Preparation

The financial statements are general purpose financial statements and are required by section 42 of the Public Governance, Performance and Accountability Act 2013 (PGPA Act).

The financial statements have been prepared in accordance with:

a) Public Governance, Performance and Accountability (Financial Reporting) Rule 2015 (FRR); and

b) Australian Accounting Standards and Interpretations - Reduced Disclosure Requirements issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, except for certain assets and liabilities at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The financial statements are presented in Australian dollars.

New Accounting Standards

All new, revised, amending standards and/or interpretations that were issued prior to the sign-off date and are applicable to the current reporting period did not have a material effect on TEQSA's financial statements.

Except for AASB 116 Leases which is operative from 1 January 2019, all other new, revised, amending standards and/or interpretations that were issued prior to the sign-off date and are applicable to future reporting periods are not expected to have a future material impact on TEQSA's financial statements.

Cash and Cash Equivalents

Cash is recognised at its nominal amount. Cash and cash equivalents include cash on hand, deposits in bank accounts with an original maturity of 3 months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

Other Non-Financial Assets

Other non-financial assets consist of prepayments which are expected to be consumed within the next 12 months.

Taxation

TEQSA is exempt from all forms of taxation except Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).
Reporting of Administered activities
Administered revenues, expenses, assets, liabilities and cash flows are disclosed in the administered schedules and related notes.

Except where otherwise stated, administered items are accounted for on the same basis and using the same policies as for departmental items, including the application of Australian Accounting Standards.

Events After the Reporting Period

**Departmental**
There was no subsequent event that had the potential to significantly affect the ongoing structure and financial activities of TEQSA.

**Administered**
There was no subsequent event that had the potential to significantly affect the ongoing structure and financial activities of TEQSA.
Financial Performance

</tbody>
</table>
Leasing commitments
TEQSA in its capacity as lessee holds one office accommodation lease for its Melbourne office. The lease, which commenced in 2011-12 expires on 30 April 2022, with a five year option.

Lease payments are subject to a fixed percentage annual increase in accordance with the lease agreement.

<table>
<thead>
<tr>
<th></th>
<th>2018</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>$’000</td>
<td>$’000</td>
<td></td>
</tr>
</tbody>
</table>

Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:

- Within 1 year: 1,659
- Between 1 to 5 years: 5,110
- Total operating lease commitments: 6,769

Total operating lease commitments: 8,237

Note: Commitments are GST inclusive where relevant.

Accounting Policy
Operating lease payments are expensed on a straight-line basis, which is representative of the pattern of benefits derived from the leased assets.
1.2 Own-Source Revenue and Gains

<table>
<thead>
<tr>
<th>Own-Source Revenue</th>
<th>2018</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>$'000</td>
<td></td>
<td></td>

1.2A: Sale of Goods and Rendering of Services

<table>
<thead>
<tr>
<th>Rendering of services</th>
<th>123</th>
<th>86</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total sale of goods and rendering of services</td>
<td>123</td>
<td>86</td>
</tr>
</tbody>
</table>

Accounting Policy

Revenue from rendering of services is recognised by reference to the stage of completion of contracts at the reporting date. The revenue is recognised when:

a) the amount of revenue, stage of completion and transaction costs incurred can be reliably measured; and

b) the probable economic benefits associated with the transaction will flow to TEQSA.

The stage of completion of contracts at the reporting date is determined by reference to the proportion that costs incurred to date bear to the estimated total costs of the transaction.

Receivables for services, which have 30 day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at the end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

1.2B: Rental Income

<table>
<thead>
<tr>
<th>Operating lease</th>
<th>2018</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sublease rental</td>
<td>255</td>
<td>316</td>
</tr>
<tr>
<td>Total rental income</td>
<td>255</td>

</tr>
</tbody>
</table>

Subleasing rental income commitments

TEQSA in its capacity as lessor sublets office accommodation for its surplus office space. The sublease commenced on 21 September 2015 and expires on 28 February 2022.

Lease receipts are subject to a fixed percentage annual increase in accordance with the sublease agreement.

Commitments for sublease rental income receivables are as follows:

<table>
<thead>
<tr>
<th>Within 1 year</th>
<th>2018</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>Between 1 to 5 years</td>
<td>797</td>
<td>1,222</td>

<td>Departmental appropriations</td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Total revenue from Government</strong></td>
<td><strong>14,072</strong></td>
<td><strong>11,359</strong></td>
</tr>
</tbody>
</table>

**Accounting Policy**

*Revenue from Government*

Amounts appropriated for departmental appropriations for the year (adjusted for any formal additions and reductions) are recognised as Revenue from Government when TEQSA gains control of the appropriation, except for certain amounts that relate to activities that are reciprocal in nature, in which case revenue is recognised only when it has been earned. Appropriations receivable are recognised at their nominal amounts.
**Income and Expenses Administered on Behalf of Government**

This section analyses the activities that the Tertiary Education Quality and Standards Agency does not control but administers on behalf of the Government. Unless otherwise noted, the accounting policies adopted are consistent with those applied for departmental reporting.

### 2.1 Administered - Expenses

For the year ended 30 June 2018, no administered expenses had been incurred by TEQSA (2017: nil).

### 2.2 Administered - Income

<table>
<thead>
<tr>
<th></th>
<th>2018 $'000</th>

<td>2,829</td>
</tr>
<tr>
<td><strong>Total fees</strong></td>
<td>2,307</td>
<td>2,829</td>
</tr>
</tbody>
</table>

**Accounting Policy**

All administered revenues are revenues relating to ordinary activities performed by TEQSA on behalf of the Australian Government. As such, administered appropriations are not revenues of the individual entity that oversees distribution of the funds as directed.

Revenue is generated from partial cost recovery arrangements for specified services to higher education providers. Fees are charged on registration and re-registration of providers, accreditation and re-accreditation of courses, and major variations to registrations and accreditations. Administered revenue is recognised on receipt of applications from the higher education providers.
### Financial Position

This section analyses the Tertiary Education Quality and Standards Agency's assets used to conduct its operations and the operating liabilities incurred as a result. Employee related information is disclosed in the People and Relationships section.

</tr>
</tbody>
</table>

Credit terms for goods and services were within 30 days (2017: 30 days).

No provision for impairment is provided for as at balance date.

### Accounting Policy

**Trade and Other Receivables**

Trade and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as ‘loans and receivables’. Loans and receivables are measured at amortised cost using the effective interest method less impairment.

Financial assets are assessed for impairment at the end of each reporting period.
### 3.2 Non-Financial Assets

1. The carrying amount of computer software includes $0.023 million of purchased software and $1.661 million of internally generated software.

No indicators of impairment were found when assessing property, plant and equipment and intangible assets.

No property, plant and equipment or intangibles are expected to be sold or disposed of within the next 12 months.

**Contractual commitments for the acquisition of property, plant and equipment and intangible assets**

There were no significant contractual commitments for the acquisition of property, plant and equipment and intangible assets as at balance date.
**Accounting Policy**

Assets are recorded at cost on acquisition except as stated below. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken. Non-financial assets are initially measured at their fair value plus transaction costs where appropriate.

Assets acquired at no cost, or for nominal consideration, are initially recognised as assets and income at their fair value at the date of acquisition, unless acquired as a consequence of restructuring of administrative arrangements. In the latter case, assets are initially recognised as contributions by owners at the amounts at which they were recognised in the transferor’s accounts immediately prior to the restructuring.

**Asset Recognition Threshold**

Purchases of leasehold improvements, plant and equipment are recognised initially at cost in the statement of financial position, except for purchases costing less than $2,000, which are expensed in the year of acquisition (other than where they form part of a group of similar items which are significant in total).

The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located. This is particularly relevant to ‘make good’ provisions in property leases taken up by TEQSA where there exists an obligation to restore the property to its original condition. These costs are included in the value of TEQSA’s leasehold improvements with a corresponding provision for the ‘make good’ recognised.

**Revaluations**

Following initial recognition at cost, leasehold improvements, plant and equipment are carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Valuations are conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets’ fair values as at the reporting date. The regularity of independent valuations depend upon the volatility of movements in market values for the relevant assets.

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reverses a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets are recognised directly in the surplus/deficit except to the extent that they reverse a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the asset restated to the revalued amount.

**Depreciation**

Depreciable leasehold improvements, plant and equipment assets are written-off to their estimated residual values over their estimated useful lives to TEQSA using, in all cases, the straight-line method of depreciation.

Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

<table>
<thead>
<tr>
<th>Asset Class</th>
<th>Useful Life 2018</th>
<th>Useful Life 2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>Leasehold improvements</td>
<td>Lease term</td>
<td>Lease term</td>
</tr>
<tr>
<td>Plant and equipment</td>
<td>3 to 10 years</td>
<td>3 to 10 years</td>
</tr>
</tbody>
</table>

**Impairment**

All assets were assessed for impairment at 30 June 2018. Where indications of impairment exist, the asset’s recoverable amount is estimated and an impairment adjustment made if the asset’s recoverable amount is less than its carrying amount.

The recoverable amount of an asset is the higher of its fair value less costs of disposal and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset’s ability to generate future cash flows, and the asset would be replaced if TEQSA were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

**Derecognition**

An item of leasehold improvements, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.
Intangibles
TEQSA’s intangibles comprise purchased and internally developed software for internal use. These assets are carried at cost less accumulated amortisation and accumulated impairment losses.

Software is amortised on a straight-line basis over its anticipated useful life. The useful lives of TEQSA’s software are 3 to 5 years (2017: 3 to 5 years).

All software assets were assessed for indications of impairment as at 30 June 2018.

Accounting Judgements and Estimates
The fair value of non-financial assets has been taken to be the market value of similar assets as determined by management assessment.
## 3.3 Payables

</tbody>
</table>

| Total as at 30 June 2018   | 469                            | 357   | 826   |

1. TEQSA currently has 1 (2017: 1) agreement for the leasing of premises, which has a provision requiring TEQSA to restore the premises to their original condition at the conclusion of the lease. TEQSA has made a provision to reflect the present value of this obligation.

2. TEQSA currently has 1 (2017: 1) agreement for the leasing of accommodation, which is surplus to its requirements. TEQSA has made a provision to reflect the present value of the expected costs to be incurred that are in excess of the economic benefit expected to be derived from the lease.

### Accounting Judgements and Estimates

When the present value of the future cash flows receivable from the operation of leased assets is less than the present value of the rental payments to which TEQSA is committed, TEQSA applies the shortfall firstly against the carrying amount of the assets, and then provides for any further onerous element of the contract.

TEQSA has made a provision for its onerous obligations under non-cancellable operating leases where the leased property is vacant and where the rental expense is in excess of income. Determining the amount of such provision requires estimating the future net cash flows receivable, and in particular, cases where the leased property is vacant, this requires assessing the likely period for which the property will remain vacant, the cost of any works required to enhance its marketability and the rental income receivable when the property is sublet. To the extent that actual cash flows received differ from those estimated, the amount of provision recognised could differ materially.
### Assets and Liabilities Administered on Behalf of Government

This section analyses assets used to conduct operations and the operating liabilities incurred which the Tertiary Education Quality and Standards Agency does not control but administers on behalf of the Government. Unless otherwise noted, the accounting policies adopted are consistent with those applied for departmental reporting.

#### 4.1 Administered - Financial Assets

As at 30 June 2018, TEQSA held no administered financial assets (2017: nil).

#### 4.2 Administered - Payables

As at 30 June 2018, TEQSA held no administered payables (2017: nil).

Regulatory charging activities:

TEQSA has in place partial regulatory charging for specified services to higher education providers including: registration and re-registration of providers; accreditation and re-accreditation of courses; and major variations to registrations and accreditations.

All fee revenue from regulatory charging activities is administered revenue and is returned to the Consolidated Revenue Fund. TEQSA does not have any administered expenses.

</tbody>
</table>
### People and Relationships
This section describes a range of employment and post employment benefits provided to our people and our relationships with other key people.

---

#### 6.1 Employee Provisions

<table>
<thead>
<tr>
<th></th>
<th>2018</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>6.1A: Employee Provisions</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Leave</td>
<td>1,490</td>
<td>1,297</td>
</tr>
<tr>
<td>Total employee provisions</td>
<td>1,490</td>
<td>1,297</td>
</tr>
</tbody>
</table>

#### Accounting Policy

Liabilities for short-term employee benefits and termination benefits expected within twelve months of the end of reporting period are measured at their nominal amounts.

Other long-term employee benefits are measured as net total of the present value of the defined benefit obligation at the end of the reporting period minus the fair value at the end of the reporting period of plan assets (if any) out of which the obligations are to be settled directly.

**Leave**

The liability for employee benefits includes provision for annual leave and long service leave.

The leave liabilities are calculated on the basis of employees’ remuneration at the estimated salary rates that will be applied at the time the leave is taken, including TEQSA’s employer superannuation contribution rates to the extent that the leave is likely to be taken during service rather than paid out on termination.

The liability for long service leave has been determined by the use of the Australian Government Actuary’s shorthand method using the Standard Commonwealth sector probability profile. The estimate of the present value of the liability takes into account attrition rates and pay increases through promotion and inflation.

**Separation and Redundancy**

Provision is made for separation and redundancy benefit payments. TEQSA recognises a provision for termination when it has developed a detailed formal plan for the terminations and has informed those employees affected that it will carry out the terminations.

**Superannuation**

TEQSA’s staff are members of the Public Sector Superannuation Scheme (PSS), or the PSS accumulation plan (PSSap), or other superannuation funds held outside the Australian Government.

The PSS is a defined benefit scheme for the Australian Government. The PSSap is a defined contribution scheme.

The liability for defined benefits is recognised in the financial statements of the Australian Government and is settled by the Australian Government in due course. This liability is reported in the Department of Finance’s administered schedules and notes.

TEQSA makes employer contributions to the employees’ defined benefit superannuation scheme at rates determined by an actuary to be sufficient to meet the current cost to the Government. TEQSA accounts for the contributions as if they were contributions to defined contribution plans.

The liability for superannuation recognised as at 30 June represents outstanding contributions.
6.2 Key Management Personnel Remuneration

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity. TEQSA has determined the key management personnel to be the Commissioners, Chief Executive Officer, Chief Financial Officer and Directors. Key management personnel remuneration is reported in the table below:

<table>
<thead>
<tr>
<th></th>
<th>2018</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>Short-term employee benefits</td>
<td>1,608</td>
<td>1,542</td>
</tr>
<tr>
<td>Post-employment benefits</td>
<td>181</td>
<td>191</td>
</tr>
<tr>
<td>Other long-term employee benefits</td>
<td>126</td>
<td>147</td>
</tr>
<tr>
<td><strong>Total key management personnel remuneration expenses</strong>¹</td>
<td><strong>1,915</strong></td>
<td><strong>1,880</strong></td>
</tr>
</tbody>
</table>

The total number of key management personnel that are included in the above table is 10 (2017: 9).

1. The above key management personnel remuneration excludes the remuneration and other benefits of the Portfolio Minister. The Portfolio Minister’s remuneration and other benefits are set by the Remuneration Tribunal and are not paid by TEQSA.
6.3 Related Party Disclosures

Related party relationships:

TEQSA is an Australian Government controlled entity. Related parties to TEQSA are Key Management Personnel including the Portfolio Minister and Executive.

Transactions with related parties:

Given the breadth of Government activities, related parties may transact with the government sector in the same capacity as ordinary citizens. These transactions have not been separately disclosed in this note.

Giving consideration to relationships with related parties, and transactions entered into during the reporting period by TEQSA, it has been determined that there are no related party transactions that require disclosure.
Managing Uncertainties

This section analyses how the Tertiary Education Quality and Standards Agency manages financial risks within its operating environment.

7.1 Contingent Assets and Liabilities

7.1A: Contingent Assets and Liabilities

TEQSA had no departmental contingencies at 30 June 2018 (2017: nil).

7.1B: Administered - Contingent Assets and Liabilities

TEQSA had no administered contingencies at 30 June 2018 (2017: nil).

Accounting Policy

Contingent liabilities and contingent assets are not recognised in the statement of financial position but are reported in the notes. They may arise from uncertainty as to the existence of a liability or asset or represent an asset or liability in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain and contingent liabilities are disclosed when settlement is greater than remote.
7.2 Financial Instruments

<table>

</tr>
<tr>
<td><strong>Total financial liabilities</strong></td>
<td>494</td>
<td>533</td>
</tr>
</tbody>
</table>

**Accounting Policy**

**Financial assets**
The classification of financial assets depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. TEQSA only holds financial assets of loans and receivables. Financial assets are recognised and derecognised upon trade date.

**Effective Interest Method**
Income is recognised on an effective interest rate basis.

**Impairment of Financial Assets**
Financial assets are assessed for impairment at the end of each reporting period.

Financial assets held at amortised cost - if there is objective evidence that an impairment loss has been incurred for loans and receivables, the amount of the loss is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows discounted at the asset’s original effective interest rate. The carrying amount is reduced by way of an allowance account. The loss is recognised in the Statement of Comprehensive Income.

**Financial liabilities**
Financial liabilities are classified as other financial liabilities. Financial liabilities are recognised and derecognised upon ‘trade date’.

**Other Financial Liabilities**
Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. These liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective interest basis.

Supplier and other payables are recognised at amortised cost. Liabilities are recognised to the extent that the goods or services have been received (and irrespective of having been invoiced).
7.2B: Net Gains or Losses on Financial Assets
There were no gains or losses on financial assets - loans and receivables for the year ended 30 June 2018 (2017: nil)

7.2C: Net Gains or Losses on Financial Liabilities
There were no gains or losses on other financial liabilities for the year ended 30 June 2018 (2017: nil)

7.3 Administered - Financial Instruments
TEQSA had no administered financial instruments as at 30 June 2018 (2017: nil).
7.4 Fair Value Measurement

Accounting Policy

TEQSA engaged Australian Valuation Solutions (AVS) to conduct a detailed external valuation of its non-financial assets during the 2015-16 financial year and has relied upon the results of this external valuation when establishing the carrying amounts of non-financial assets. AVS had provided written assurance to TEQSA that the valuation models developed are compliant with AASB 13.

An annual assessment is undertaken to determine whether the carrying amount of the assets are materially different from their fair value. Comprehensive valuations are carried out at least once every three years.

TEQSA’s policy is to recognise transfers into and transfers out of the fair value hierarchy levels as at the end of the reporting period.

7.4A: Fair Value Measurement

| Fair value measurements at the end of the reporting period |
|---------------|----------|
| 2018          | 2017     |
| $'000         | $'000    |
| Non-financial assets² | |
| Buildings - Leasehold improvements¹ | 816 | 1,006 |
| Plant and equipment¹          | 461 | 367 |

1. No non-financial assets were measured at fair value on a non-recurring basis as at 30 June 2018 (2017: Nil).

2. TEQSA’s assets are held for operational purpose and not held for the purposes of deriving a profit. The current use of all non-financial assets is considered their highest and best use.

7.5 Administered - Fair Value Measurement

TEQSA had no administered assets and liabilities as at 30 June 2018 (2017: nil), hence fair value measurement is not applicable.

Appendix A: Legislative framework

The TEQSA Act is the primary basis of TEQSA’s powers. The objects of the Act are to:

- provide for national consistency in the regulation of higher education
- regulate higher education using a standards-based quality framework and principles relating to regulatory necessity, risk and proportionality
- protect and enhance Australia’s reputation for quality higher education, the international competitiveness of Australia’s higher education sector, as well as excellence, diversity and innovation in higher education
- encourage and promote a higher education system that is appropriate to meet Australia’s social and economic needs for a highly educated and skilled population
- protect students undertaking, or proposing to undertake higher education in Australia, by requiring the provision of quality higher education
- ensure that students have access to information relating to higher education in Australia.

TEQSA assures the quality of registered higher education providers through nationally consistent regulation and meets the objects of the TEQSA Act through performing functions including:

- registering providers and accrediting courses of study in accordance with the TEQSA Act
- investigating whether the TEQSA Act has been or is being complied with, including by conducting compliance assessments
- collecting, analysing, interpreting and disseminating information relating to higher education providers, regulated higher education awards, quality assurance practice and improvement in higher education and the HES Framework
- cooperating with counterparts in other countries.

The agency also has responsibility under the Education Services for Overseas Students Act 2000 (ESOS Act) to register providers and courses on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) and make changes to registration, including the addition of courses and changes in student capacity, for the following providers:

- higher education providers registered under the TEQSA Act
- English Language Intensive Courses for Overseas Students (ELICOS) providers if they have an entry arrangement with a registered higher education provider
- Foundation program providers.

TEQSA is also subject to several other acts and legislative instruments including (but not limited to) the:

- Public Governance, Performance and Accountability Act 2013 (PGPA Act)
- Public Service Act 1999
- Work Health and Safety Act 2011
- Safety, Rehabilitation and Compensation Act 1988

Appendix C: Staffing profile

As at 30 June 2018, TEQSA employed 31 APS and 26 executive-level staff, including four Office Holders. All were based in Melbourne.

Of these employees:

- 63 per cent were female and 37 per cent were male
- 91 per cent were ongoing employees, and nine per cent were non-ongoing

At 30 June 2018, TEQSA had one ongoing staff member who identified as Indigenous.

As at 30 June 2018, TEQSA had 24.8 (full-time equivalent) contractors.

SES remuneration
TEQSA currently has no SES employees.

Appendix D: Freedom of information
Entities subject to the Freedom of Information Act 1982 (FOI Act) are required to publish information as part of the Information Publication Scheme (IPS). This requirement appears in Part II of the FOI Act and has replaced the former requirement to publish a section 8 statement in an annual report. Each agency must display a plan on its website showing what information it publishes in accordance with the IPS requirements.

In accordance with these IPS requirements, an agency plan indicating published information is accessible from TEQSA’s website at [www.teqsa.gov.au/information-publication-scheme](http://www.teqsa.gov.au/information-publication-scheme)

Appendix E: Ecologically-sustainable development and environmental performance
The information provided is in accordance with section 516A of the Environment Protection and Biodiversity Conservation Act 1999. TEQSA is committed to progressing towards a sustainable future and continued improvement in reducing negative impacts on the environment.

In 2017–18 TEQSA complied with environmental initiatives, participating in recycling initiatives offered by the 530 Collins Street building management. This comprises paper, cardboard, co-mingled organic matter and hard waste recycling; e-waste recycling; and battery recycling. TEQSA is committed to reducing contamination of waste streams and reducing its general waste stream. TEQSA provides all staff with individual under-desk, co-mingled recycling bins.

TEQSA also continued its commitments to other recycling initiatives not provided by building management, including printer toner and waste cartridge recycling.
Appendix F: Advertising and market research

TEQSA did not conduct any advertising campaigns during 2017–18.

Appendix G: Workplace health and safety

TEQSA is committed to safeguarding the health, safety and welfare of staff and visitors and to preventing occupational injury. TEQSA has a Workplace Health and Safety (WHS) Committee that includes representatives from management and staff. TEQSA provides staff with access to an Employee Assistance Program and annual flu vaccinations.

TEQSA also implements a Wellbeing Workshop series, a Disability Action Plan, a Multicultural Plan and a Diversity Program to support staff wellbeing.

No reportable WHS incidents occurred during 2017–18 and TEQSA was not required to give any notices under the Work Health and Safety Act 2011.

Appendix H: Complaints handling

Complaints about higher education providers

TEQSA monitors complaints about higher education providers registered with TEQSA as they relate to compliance with the HES Framework and, if applicable, the ESOS Act and National Code.

The HES Framework represents the minimum acceptable requirements for the provision of higher education by higher education providers registered under the TEQSA Act.

In 2017–18, TEQSA reviewed its approach to the handling of complaints to improve the recording of, response to, and reporting of complaints made to TEQSA about registered higher education providers.

The complaints page on TEQSA’s website www.teqsa.gov.au/complaints provides information for the public on options for making a complaint to TEQSA about a registered higher education provider. This website includes links to Commonwealth and state and territory ombudsman offices.

The website states that complaints received about a provider are gathered to assist TEQSA in regulating the sector. The website makes clear that only complaints about the compliance of higher education providers with the HES Framework, the ESOS Act and the National Code can be accepted by TEQSA. The website provides advice to domestic and international students as well as other stakeholders in relation to resolving complaints.

In accordance with the TEQSA Service Charter, TEQSA endeavours to respond within five business days of receiving a complaint.

Complaints about TEQSA

Appendix I: Disability reporting

Since 1994, Commonwealth departments and agencies have reported on their performance as policy adviser, purchaser, employer, regulator and provider under the Commonwealth Disability Strategy. In 2007–08, reporting on the employer role was transferred to the Australian Public Service Commission’s State of the Service Report and the APS Statistical Bulletin. These reports are available at www.apsc.gov.au. From 2010–11, entities have no longer been required to report on these functions.

The Commonwealth Disability Strategy has been replaced by the National Disability Strategy 2010–2020, which sets out a 10-year national policy framework to improve the lives of people with disability, promote participation and create a more inclusive society. A high level, two-yearly report will track progress against each of the six outcome areas of the strategy and present a picture of how people with disability are faring. The first of these progress reports was published in 2014, and can be found at www.dss.gov.au.

TEQSA’s disability action plan

TEQSA’s Disability Action Plan sets out the agency’s commitment to the inclusion, support and engagement of people with a disability. It aims to promote the equitable participation of staff with a disability in the workplace and to remove barriers and provide improved access and services to people with a disability.

The plan focuses on four key priority areas:

- physical accessibility
- technological accessibility
- employment
- communication and community engagement.

The plan was developed in accordance with the provisions of the Disability Discrimination Act 1992 and was informed by the National Disability Strategy 2010–2020.

Glossary of terms

Australian Skills Quality Authority (ASQA)
The Australian Skills Quality Authority (ASQA) is the national regulator for Australia’s vocational education and training sector. ASQA regulates courses and training providers to ensure nationally-approved quality standards are met.

Australian Qualifications Framework (AQF)
The Australian Qualifications Framework (AQF) is Australia’s national policy for regulated qualifications. The AQF encompasses higher education, vocational education and training, and school education. It provides for national recognition and a consistent understanding of what defines each qualification type.

While TEQSA does not determine the content of the AQF, the agency has regard to the specifications and guidelines throughout the AQF. The HES Framework includes the requirement that the learning outcomes of all higher education qualifications at Levels 5–10 of the AQF must be consistent with the level of the course, which TEQSA will assess against the corresponding specifications for levels in the AQF. TEQSA will also take into consideration the relevant qualification type descriptors in the AQF.

Core+
Under the Core+ model of assessment, providers with a sound history of higher education delivery and no significant compliance or risk concerns benefit from a reduced scope of assessment (requiring less evidence and information at the time of application), compared with those with a limited track record of higher education delivery or with compliance or risk concerns. The model allows applicants to address a sub-set of quality standards and provide a minimum core of evidence relating to the standards.

Any extension beyond the core set of standards (the +) is based on risk. The Core+ model was introduced for assessment of re-registration applications in late 2013 and for course accreditations in September 2015.

Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS)
Commonwealth Register of Institutions and Courses for Overseas Students is the official Australian Government website that lists all Australian education providers offering courses to people studying in Australia on student visas and the courses offered. CRICOS is a searchable database managed by Department of Education and Training under the ESOS legislative framework. It provides details of Australian education institutions approved to recruit, enrol and deliver education and training services to overseas students and details of the courses that they deliver. TEQSA is responsible for assessing applications for inclusion on the CRICOS and for approving the registration of a provider on CRICOS. The database can be searched by course or provider name/number and can be accessed at cricos.education.gov.au.
Department of Education and Training

The Australian Government Department of Education and Training (the department) is responsible for national policies and programs that help Australians to access quality early childhood education, school education, higher education, vocational education and training, international education and research.

English Language Intensive Courses for Overseas Students (ELICOS)

English Language Intensive Courses for Overseas Students are courses offered to students studying in Australia on student visas. ‘Intensive’ denotes full-time study comprising a minimum of 20 scheduled course contact hours per week of face-to-face classes of English language instruction.

Education Services for Overseas Students (ESOS)

The Education Services for Overseas Students (ESOS) Act 2000 (the ESOS Act) and the associated legislation form the legal framework governing delivery of education to overseas students studying in Australia on a student visa. The framework sets out clear roles and responsibilities for providers of education and training to international students and complements Australia’s student visa laws. On 29 January 2012, TEQSA assumed responsibility for regulating international education for higher education under the ESOS Act.

Higher education provider

Higher education provider is defined in the TEQSA Act and means:

a. a constitutional corporation that offers or confers a regulated higher education award, or

b. a corporation that:
   i. offers or confers a regulated higher education award
   ii. is established by or under a law of the Commonwealth or a Territory

c. a person who offers or confers a regulated higher education award for the completion of a course of study provided wholly or partly in a Territory.

Higher Education Standards Framework

Higher Education Standards Framework (Threshold Standards) 2011 (HES Framework 2011) was made by the responsible Minister on the advice of the Department of Industry, Innovation, Science, Research and Tertiary Education and commenced on 5 January 2012. The Higher Education Standards Framework (Threshold Standards) 2015 (HES Framework 2015) was determined by the Minister for Education and Training on advice from the independent HESP and commenced on 1 January 2017.

Higher Education Standards Panel
The HESP is responsible for developing and monitoring the Higher Education Standards Framework. HESP members are appointed by the Minister, in consultation with the responsible Minister for Research. As of 1 January 2015, the HESP has been supported by the department.

Higher Education Support Act (HES Act)
The Higher Education Support Act 2003 provides for the Commonwealth Government to give financial support for higher education and certain vocational education and training through:

- grants and other payments made largely to higher education providers
- financial assistance to students (usually in the form of loans).

Material change
Under subsection 29(1) of the TEQSA Act, it is a condition of registration that TEQSA is notified of events that happen, or are likely to happen, that will either:

- significantly affect the provider’s ability to meet the Higher Education Standards Framework
- require updating the provider’s entry on the National Register of Higher Education Providers.

National Code
The National Code of Practice for Providers of Education and Training to Overseas Students 2018 (National Code) provides nationally consistent standards for the conduct of registered providers and the registration of their courses. These standards set out specifications and procedures to ensure that registered providers of education and training courses can clearly understand and comply with their obligations under the National Code.

National Register
The National Register of Higher Education Providers (National Register) was established and is maintained under section 198 of the TEQSA Act. The National Register is available at www.teqsa.gov.au/national-register.

Provider category

Registered higher education provider
This term refers to a higher education provider registered under Part 3 of the TEQSA Act and listed on the National Register under paragraph 198(1)(a) of the Act.

Regulatory risk
In the context of TEQSA’s quality assurance and regulatory operations, regulatory risk refers to actual or potential risk events (regarding a provider’s operations and performance) that indicate that the provider may not meet the HES Framework (either currently or in the future).

Risk assessment
The term ‘risk assessment’ captures the overall process of risk identification, risk analysis and risk evaluation.

Risk Assessment Framework
TEQSA’s Risk Assessment Framework outlines TEQSA’s approach to undertaking structured risk assessments of registered higher education providers. Risk assessments play a key role in TEQSA’s risk-based quality assurance and regulation of the sector by helping to prioritise TEQSA’s regulatory focus.

Standards-based regulation

Australia’s regulatory system for higher education uses a standards-based quality framework and TEQSA’s approach reflects the risks to the sector and those particular to each provider. The Higher Education Standards Framework (Threshold Standards) 2011 (HES Framework 2011) was made by the responsible Minister on the advice of the Department of Industry, Innovation, Science, Research and Tertiary Education and commenced on 5 January 2012. The Higher Education Standards Framework (Threshold Standards) 2015 (HES Framework 2015) was determined by the Minister for Education and Training (the Minister) on advice from the independent Higher Education Standards Panel (HESP) and commenced on 1 January 2017.

TEQSA case managers

TEQSA case managers are assessment staff employed in the Assurance Group and Assessment and Investigations Group of TEQSA who manage activities relating to higher education providers, through communication and cooperation with provider contacts.

TEQSA stakeholder survey 2018

In June 2018, TEQSA undertook a sector-wide survey for 2017–18, to increase TEQSA’s accountability, better understand its impact on higher education providers, and improve its performance. The assessment was against the key performance indicators outlined in TEQSA’s Regulator Performance Framework. Relevant peak, professional and student bodies were also invited to participate in the survey.

Compliance index

Table 12 indicates the location of information provided in accordance with paragraph 17A(j)(d) of the PGPA Act. References in the first column of the Compliance index are to the relevant paragraph in the PGPA Act.
